This Correction Chart encompasses every chapter and section of The Writer’s Harbrace Handbook, Third Edition. The chart reproduces the table of contents and the list of revision symbols keyed to chapters or sections in the handbook. By writing either the appropriate section number (for example, 3g) or revision symbol (dev or frag) in the margin of a student’s paper next to a writing problem, the instructor can easily refer the student to the explanation in the handbook that will aid the student in making the needed revision. This chart is designed to fold out and stand on the instructor’s desk.
