DIRECTIONS FOR REACHING THE LINCOLN UNIVERSITY*

(See Map on page 96)

THE LINCOLN UNIVERSITY is situated between Oxford and West Grove, Pennsylvania, on Route 1, forty miles from Philadelphia and sixty from Baltimore. It is twenty-five miles northwest of Wilmington, Delaware, twenty-five miles southwest of West Chester, and thirty miles southeast of Lancaster, Pennsylvania.

It may be reached conveniently by the Greyhound and Safeways buses from Philadelphia and Baltimore, and by the Short Line buses from West Chester and Wilmington, which stop at the campus gate. It may also be reached from Philadelphia by the Octoraro Branch of the Pennsylvania Railroad. The Railroad Station is three-quarters of a mile from the University.

In coming to the University and in directing mail and baggage, care should be taken to use the exact address, LINCOLN UNIVERSITY, Pennsylvania.

THE LINCOLN UNIVERSITY

LOCATION

THE LINCOLN UNIVERSITY is situated amid beautiful and healthful surroundings among the hills and farmlands of Chester County, Pennsylvania, on the Baltimore Pike (U. S. and Penna. Route No. 1), the main highway between the North and the South. It is approximately fifty miles from both Philadelphia and Baltimore.

Recent movements of population have given to The Lincoln University a strategic position. It is midway between four of the largest centers of Negro population in the world: New York, Philadelphia, Baltimore, and Washington; and is easily accessible from all of them.

It is the only Liberal Arts college for Negroes in the northeastern area which contains more than a million Negro population. A million are within a hundred miles of its doors. Of the 12,000,000 or more Negroes in the United States, two million and a half are in the northern states today.

PURPOSE

The early story of Lincoln was the effort of white men to help the colored race. Now it has become a joint adventure of the white and colored races in training leaders for the colored race.

The Lincoln University, a College of Liberal Arts and a Theological Department, offers basic training for leadership in the ministry, medicine, law, teaching, social service, and other professions and employments. It is a key to development along sound, effective, patriotic, Christian lines.

HISTORY

1849: While ordaining a young white man for missionary work in Africa at New London, Pa., on May 8, the Rev. John Miller Dickey, D.D., Pastor of the Presbyterian Church at Oxford, Pa., conceived the idea of a school for training young colored men to carry the light of the gospel to their own race.

1852: James Ralston Amos, a young colored man of Chester County, Pa., asked the help of Rev. John Miller Dickey to secure an education. Dr. Dickey's inability to find a school where the youth would be welcome furnished another argument for the establishment of a school for colored men. Meanwhile,
Amos walked 28 miles once a week to recite to Dr. Dickey the lessons he had learned. He was to become one of the first three graduates of Ashmun Institute.

1853: In a sermon preached at Oxford, in August, Dr. Dickey said: “A race enlightened in the knowledge of God will eventually be free. Kindle the lamp of religious knowledge; it will surely light them to an elevated position among the people of the earth.”

The Presbyterian General Assembly approved the plan for the establishment of a school for the Christian training of colored youth, and the Presbytery of New Castle, meeting at Coatesville, Pa., on October 4, authorized the establishment under its supervision of “an institution to be called Ashmun Institute, for the scientific, classical, and theological education of colored youth of the male sex.” The aim was to train colored ministers and teachers to work among their own race in this country and Africa.

In this year Dr. Dickey purchased a farm of 30 acres near Hinsonville, Pa., later transferred to a committee, as the site of Ashmun Institute, named for the Liberian pioneer Jehudi Ashmun.

1854. The first charter was granted by the State of Pennsylvania under the title of Ashmun Institute, and was signed by Governor Bigler on April 29.

1856: Ashmun Institute, was dedicated and its principal, Rev. John P. Carter, D.D., was installed on December 31. The dedicatory sermon was preached by Rev. Cortlandt van Rensselaer, D.D., on the theme, “God will be glorified in Africa.”

1857: Ashmun Institute was opened on January 1 to four students—two in the preparatory school and two in the theological department. During the first few years most of the students were former slaves. At first Dr. Carter was President and faculty in one, continuing as such until 1861. The Institute comprised a small three-story building, including dormitory, chapel, recitation room and refectory in its narrow compass, and a single residence for the one instructor.

1859: The first three students completed their studies and went to Africa as missionaries of the Board of Foreign Missions of the Presbyterian Church. They were Armisted Miller, James R. Amos and Thomas H. Amos.

1860: The beginning of the Civil War found the school operating under great difficulties, financial and otherwise. When the institution faced complete collapse, Dr. Dickey, “the father of
the enterprise, became also its saviour by placing a mortgage on his own home” to raise money to keep it going. Further, according to Dr. Dickey, “it was at different times threatened with destruction by raids from Maryland.”

1864: The financial clouds began to lift as the war ended. Twenty-three students were enrolled and modest funds began to trickle in. The raising of money devolved almost wholly on Dr. Dickey. The institution had passed the period of experiment and entered into a broader usefulness.

1865: Rev. Isaac Norton Rendall, D.D., a graduate of Princeton College in the class of 1852 and of the Princeton Theological Seminary in the class of 1855, was called to the Presidency of Ashmun Institute, beginning a service which was to last 40 years as President, and seven more as President-emeritus, giving “all the rare and noble powers with which he was endowed in body, mind and spirit to the higher education of the young men of the Negro race.” On the day after the assassination of Abraham Lincoln, Dr. Rendall was on the train en route to assume direction of the Institute. He succeeded Rev. John Wynn Martin, D.D., retired.

1866: In accordance with plans for the expansion of the Institute as outlined by the Trustees in a report to the Presbyterian General Assembly in 1865, the charter of Ashmun Institute was amended by the Legislature of Pennsylvania (approved by Governor Curtin on April 4), and the name was changed to “The Lincoln University”—the institution thus becoming the first to bear the name of Abraham Lincoln. The first section of the Act changed the name of “Ashmun Institute,” to “The Lincoln University” for these reasons stated in the report:

“For satisfactory reasons, chiefly in honor of the illustrious patriot, statesman, and philanthropist, the loved and lamented Abraham Lincoln, who, when living, delighted to serve the long-oppressed and neglected people for whom this institution has been provided, and who, in dying, sealed his devotion to an emancipated race, it was considered an appropriate expression of gratitude that the enlarged plans and combined buildings of this educational scheme should bear the worthy name of him who did so much to lift the crushing loads from the mind and the heart and the body and the manhood of the African. Hence, in view of the rapidly expanding work now before the institution, because of its hard-earned experience.
its complex demands, and its ample powers to make pro-
vision for the thorough education of the students in every de-
partment of a classical, scientific, theological, and professional
training, the Legislature of Pennsylvania has conferred upon
it the title of ‘The Lincoln University.’”

1871: On February 18 Governor Geary approved a supplement to
the charter in which “all powers and authority in the affairs
of The Lincoln University heretofore held by the Presbytery of
New Castle, be and are hereby conferred upon the Board of
Trustees of said Lincoln University.”

1878: Rev. John Miller Dickey, D.D., died on March 20... “So
passed this noble man, this ‘Prince in Israel,’ from the scene
of his earthly labors, for, verily, his works do follow him.”

1904: Celebration of fiftieth anniversary with a large assembly of
alumni and friends.

Rendall, was elected President of the University. He rounded
out a “Rendall Administration” from 1865 to 1924; “60 years
save one—which witnessed the growth of the institution from
a primitive beginning to a full-grown college of recognized
rank.”

1910: President William Howard Taft spoke at the commencement
on June 18, the first President of the United States to address
the students of Lincoln University.

1912: Rev. Isaac Norton Rendall, D.D., President for forty years,
died on October 15, in his 88th year, held in affectionate re-
membrance as “a man sent from God.”

1917: Commencement omitted because of war conditions. Many
Lincoln graduates were in military service.

1921: Alumni Arch, memorial to Lincoln men in the World War,
dedicated with an address by President Warren G. Harding,
the second President of the United States to deliver an ad-
dress at The Lincoln University.

1924: Rev. John Ballard Rendall, D.D., President since 1906, died
on September 3. His service, first as a teacher in the pre-
paratory department, then as a professor in the college, next
as Dean of the College, and finally as President of the Uni-
versity, covered more than half a century, a longer term than
that of any other man in its history.

1927: Rev. William Hallock Johnson, D.D., inaugurated as President
on October 20 after long service as professor and Dean.

1928: Survey of Negro colleges and universities issued by the United States Bureau of Education contains the following statement: "throughout its long history The Lincoln University has rendered an excellent service to society worthy in every respect of the support that has been accorded it. The institution for many years has been a strong factor in the development of leadership in the Negro race ... The Survey Committee was impressed with the able manner in which the institution was being administered."

1929: The Lincoln University celebrated the 75th anniversary of its founding at commencement. President Herbert Hoover, in a message of congratulation, praised "its splendid services on behalf of the education and of the improvement of the conditions of the Negro, and of his relations with other races."

1936: President William Hallock Johnson retired from the presidency January 31, and was succeeded by the Vice President, Walter Livingston Wright, for many years professor of Mathematics. The work of the University went forward rapidly under the administration of President Johnson with large additions to the endowment and the plant.

DESCRIPTION

The University is under the control of an independent Board of Trustees, a self-perpetuating body consisting of twenty-eight members, both white and colored, arranged in eight classes of three each, who hold office for eight years, or until their successors are elected. Three members of the Board are elected by the Alumni, one each year for a term of three years. The Governor of the Commonwealth is ex officio a member of the Board.

The officers of the Board consist of a President, Vice-President, a Secretary, and a Treasurer, elected annually. There are three stated meetings of the Board: on the first Wednesday in February, the day of the University Commencement, and the second Thursday of November.

The University owns endowment funds of $1,055,904.09, and buildings and grounds of an estimated value of $783,673.49. The grounds consist of 275 acres of land, of which part is farmed, part is woodlot, and part is campus. On the campus are the following buildings:

University Hall, 1891, built by undesignated funds, a three-story brick building, containing seventeen large and well-lighted rooms, used for lecture and recitation purposes.
THE MARY DOD BROWN MEMORIAL CHAPEL, 1892, gift of the late Mrs. Susan Dod Brown, of Princeton, N. J., a Gothic structure of dark red brick with a square bell-tower, containing an audience room for 400 persons, and an adjacent hall for 200. A recent addition to the Chapel is a Hammond Electric Organ.

ASHMUN HALL AND LINCOLN HALL, dormitories, built by undesignated funds in 1856 and 1866, respectively.

CRESSON HALL, 1870, gift of the Freedmen’s Bureau, through the interest of General O. O. Howard, then a Trustee of Lincoln University.

RENDALL HALL, a new dormitory opened for use in 1931, named in honor of two former presidents of the University, Isaac N. Rendall and his nephew, John B. Rendall, and built by funds provided by the General Education Board, the Julius Rosenwald Fund, Miss Carolina Hazard, Mr. Pierre S. duPont, Mr. J. Frederic Talcott, and other generous friends, containing in addition to dormitory rooms with all modern conveniences, a large reception room, a Y.M.C.A. room with committee rooms, a barber shop, clothes pressing room, and trunk storage compartment.

HOUSTON HALL, 1881, gift of the late H. H. Houston of Philadelphia, a dormitory for theological students.

THE HARRIET WATSON JONES GUEST HOUSE, 1896, gift of the late J. M. C. Dickey, of Oxford, Pa., an attractive cottage for guests fitted up and furnished by the Ladies’ Auxiliary of the Alumni.

THE McCauley REFECTOR Y, 1904, the gift of the late Dr. Thomas McCauley and Mrs. Mary D. McCauley, a three-story brick building used as the University dining hall, and residence of the dietitian.

THE VAIL MEMORIAL LIBRARY, 1899, given by William H. Vail, M.D., of Newark, N. J., comprising a stack room, reading rooms, and librarian’s room.

THE SCIENCE HALL, erected in 1925, with funds contributed by the Alumni and other friends, aided by the General Education Board and Mr. Pierre S. duPont. The building contains lecture rooms and laboratories for the departments of physics, biology, and chemistry.

THE CENTRAL HEATING PLANT, renovated in 1931, at an expense of $75,000, contributed by the General Education Board, Mr. Pierre S. duPont, Mr. Lammot duPont, and Mr. John H. Ware, Jr.

THE GYMNASIUM, 1935, built with funds contributed by Miss Susan Gorgas, members of the Alumni, and the General Education Board.

THE SEWAGE DISPOSAL PLANT, 1936, a new modern sewer system and sewage treatment plant, constructed with funds given by the General Education Board.

Fifteen dwelling houses, used as residences for professors and other members of the University staff.

NEEDS AND OPPORTUNITIES

Sources of Current Income  The University is maintained by income from endowment, by annual grant from the State of Pennsylvania, by student fees, and by contributions from friends interested in keeping up and extending the work of the University.

Endowment  There is great need for further endowment both in smaller and larger amounts.

Twenty-five hundred dollars will endow a scholarship with the name of the donor perpetually attached. Larger sums will provide for greatly needed additions to the teaching and library staff. These endowments are permanent memorials of the donors.

Alumni Loan Fund  The Alumni of the University have provided a revolving loan fund. Contributions will be welcomed and will be administered jointly by the Alumni or the other donors and the Administration of the University.

Buildings and Grounds  Small sums of money can be used about the buildings and grounds for improvements which may be permanent memorials of the donors. These include walks, drives, gateways, and the fitting up of rooms and buildings. There is great need for a social center.

The long range program for the upbuilding and rehabilitation of the University calls for a million dollars.

The Recitation Hall erected in 1891, the Library in 1899, and the Dining Hall in 1904, were adequate for 200 students, but are inadequate for the present 389 now in the University.

The University should increase its capacity to accommodations for 500 students.

The buildings most needed, and the estimated cost of each, are as follows:

$1,000,000
Money for scholarships is most urgently necessary. In order to avoid dismissing or turning away students, the University needs not less than $10,000 annually for scholarship aid.

Scholarship gifts of $50 will enable some men to continue their studies who otherwise would have to discontinue for lack of funds.

A year's tuition is $120.

Board and room for a year are $230.

*Four hundred dollars will meet the entire charges of a student for one year.*

It is for this fund for student aid that the University especially appeals at this time to men and women of good will toward the Negro.

**Annuities and Bequests**

The Life Annuity Plan offers to donors an opportunity of making gifts to the University during their lifetime, without sacrificing any of their present income. A formal agreement is given to the donor, binding the Board to pay an annual sum in semi-annual remittances during life at rates varying from five to nine per cent, according to age at the time the Annuity Gift is made.

When it is intended to make bequests to The Lincoln University, care should be taken in the preparation of wills to use the exact corporate name as known and recognized in the courts of law, namely, “The Lincoln University,” and to add its location, “Chester County, Pennsylvania.”

**INFORMATION**

Information and literature concerning the University may be obtained from the President, Walter Livingston Wright, at Lincoln University, from Mr. Henry Carter Patterson, Witherspoon Building, Philadelphia, Pa., and from Mr. George Aubrey Hastings, 156 Fifth Ave., New York City.

The President of the University will be glad to discuss its possibilities and needs with any interested persons.

RELIGIOUS INSTITUTIONS AND OPPORTUNITIES

The "Ashmun Church" was established under the control of the local Presbytery of Chester as a church home for students during
their college life. While it is organized as a Presbyterian Church, members of all evangelical denominations are received, and letters of dismissal to churches of other denominations are given when they leave the University.

The Young Men's Christian Association has an active organization in the University. It co-operates with the national, the state, and the southern branches of the Association, and promotes locally a program of religious and recreational work. There is an Episcopal Club for members of the Protestant Episcopal Church, and a Newman Club for members of the Roman Catholic Church.

Chapel exercises are held every Tuesday, Wednesday, Thursday, and Friday morning. Every Sunday morning divine worship is conducted in the University Chapel, and on Wednesday evening a weekly prayer meeting. The Y. M. C. A. also conducts on Sunday evenings an open forum for discussion of current problems of religious and social interest.

TERMS AND VACATIONS

The University year includes thirty-six weeks of term time, divided into two semesters. There is a Thanksgiving recess of four days, a Christmas recess of two weeks, and an Easter recess of six days. Commencement Day is usually the first Tuesday in June.

THE UNIVERSITY LIBRARY

The University Library, known as the Vail Memorial Library, is housed in an attractive building erected by the gift of William H. Vail, M.D., Newark, N. J., a member of the Board of Trustees. About $2,500 is expended annually for the purchase of books and periodicals. The number of bound volumes on the shelves is approximately 36,500.

The Library has been built up through the last ten years by a grant of $25,000 from the Carnegie Corporation, New York City, for the purchase of books.

This building also houses the valuable collection of African Art given by the missionary, Dr. Irvin W. Underhill, in memory of his wife, Susan Reynolds Underhill. Through the tireless effort and devotion of the former Curator of the Museum, Mrs. Mary Fleming Labaree, who collected larger and smaller sums of money for the purpose, suitable cases for the protection and ease of viewing of this unique exhibit have been secured. Increasingly visitors and students are interested in studying these displays.
CATALOGUE NUMBER

That the fine arts should have a definite part in the cultural program of a liberal arts college is acknowledged by bringing to the Vail Memorial Library throughout the college year successive loan exhibits of oil paintings, watercolors, etchings, lithographs, wood engravings, etc., by single artists of repute or by groups of representative artists.

The College is trying to build up its nucleus of permanent art works and reproductions to be seen on the walls of both Library and dormitory reception rooms.

THE UNIVERSITY BOOKSTORE

The University maintains a bookstore situated in the University Office building. The necessary textbooks and syllabi are sold at this store at the lowest possible price after paying for the costs of receiving and distribution.

ACCOMMODATIONS FOR VISITORS

Guests are welcome at the University. Meals may be obtained at the Refectory or Coffee Shop, and overnight lodging at the Guest House, at nominal cost.

THE COLLEGE

The College is approved by the College and University Council of the State of Pennsylvania, the American Medical Association, and since December 1, 1922, as a fully accredited four-year Senior college, by the Middle States Association of Colleges and Secondary Schools.

§ 1. ADMISSION, ADVANCED STANDING AND WITHDRAWAL

Those who desire to enroll in the College Department should read carefully the information herein given concerning the scholastic requirements for admission and the general statement regarding fees and the regulations governing their payment. They should then write to the Dean of the College (address “Lincoln University, Pa.”) for an application blank. This should be filled in and returned to the Dean, who will then secure the previous scholastic record of the applicant and notify him as to his scholastic eligibility to enter. He must in addition satisfy the Business Manager as to his ability to defray the costs of his education before receiving a permit to matriculate on the day set for registration.

The requirement for admission to the Freshman class is the completion of fifteen units of secondary school subjects, of which some are prescribed and the remainder elective, as specified below. The unit represents the successful study of a subject for an academic year of thirty-six weeks, five recitations a week for forty-five minute periods.

### Candidate must offer:

| Total                          | 15                |

It is recommended that the elective subjects include two of science, one of foreign language, one of mathematics, one of history and social science, and not more than one of the vocational subjects usually taught in secondary schools.

All candidates must admit satisfactory evidence as to moral
character and promise of usefulness. Two persons connected with
the school attended by the candidate should be asked to send letters
of recommendation direct to the Dean of the College.

All candidates must also furnish proof from a reputable phy-
sician that their health is such as to enable them to pursue a college
course without interruption. A physician’s certificate showing vac-
cination within four years of entering college must also be submitted
with the health report.

Candidates may be admitted either by certificate or by exam-
ination.

To be admitted by certificate the candidate must have completed
a minimum of fifteen acceptable units in a secondary school ac-
credited as a standard senior high school either by the state authori-
ties or by the regional accrediting bodies. Schools not on these lists
will be asked to submit the names of leading colleges on whose
accepted lists they do appear, and their acceptability will be tenta-
tively determined on the facts furnished. In case any school recom-
mands students whose records prove to be consistently below the
standards, the certificates of that school will not be considered
acceptable.

To be admitted by examination the candidate must submit the
results of the examinations taken under any recognized examining
body: the New York Board of Regents, the College Entrance Ex-
amination Board, the Local Examinations of the English Universities,
or the like. The Lincoln University does not conduct entrance ex-
aminations.

A candidate for admission to the Freshman class who has not
secured the prescribed units for admission many yet be conditionally
admitted, if, in the judgment of the Committee on Admissions, he
is qualified to undertake the work of the class.

All entrance conditions must be removed before the student
is advanced to the next higher class.

A student admitted conditionally will be on probation for the
first semester of his residence. At the end of this semester he will
be informed whether he is to be admitted to full standing or dropped
from the roll. Conditions in foreign languages may be removed by
taking the elementary language courses offered by the College. If
successfully completed, these courses will be counted as removing
entrance condition, not as credit toward the degree.

Students who have satisfactorily completed at least a semester’s
work at a college of recognized standing may be admitted with such
advanced credits as their previous records may warrant.
Each candidate should send to the Dean of the College with his application blank a catalogue of the college plainly marked, showing the entrance credit obtained and the courses passed. The Dean will then obtain an official transcript of the college record, including the entrance credit. These data will enable a tentative estimate to be given the candidate as to the prescribed work he must do and the length of time it will take him to earn the degree. If admitted, he will not be classified until a semester has elapsed during which the Committee on Admissions will have opportunity to judge of his attainments and ability. At the end of the semester he will be given a definite classification with a notification of the exact amount of residence work he must complete before recommendation for the degree.

No applicant may enter the Senior class as a candidate for a degree after October 1st in any year, and no student will be recommended for a degree who has resided less than two semesters at Lincoln University.

Candidates for advanced standing must also furnish the following certificates: (1) a certificate of honorable dismissal showing all bills paid at the institution previously attended, (2) a certificate of good moral character from an authorized representative of his college, (3) a certificate of sound health.

Students entering the College for the first time will be required to take a Psychological Test and such other Placement Tests as the Faculty may decide. These tests are not intended to determine the admission of the student, but to indicate the grade of work of which he is capable and the most efficient method of teaching him.

Before attending any University exercise each student must comply with the regulations in regard to registration and payment of fees. He must present himself in person at the University Office and there obtain an official matriculation card signed by the Business Manager and a card showing the courses he is permitted to take during the ensuing semester. Students already in the college must follow the same procedure on dates set for registration at the opening of each semester. Failure to comply with this procedure on the dates assigned will subject the student to an extra fee of $3.00 unless excused by the Dean of Men. Even if so excused he is held accountable for absences thus incurred.

Each person whose registration has been completed will be considered a student of the University during the period for which such registration is valid as indicated on the matriculation card.

An honorable discharge will always be granted to any student in good academic standing, not subject to discipline, provided all
his financial obligations to the University have been met and his library card has been cleared. However, no student under the age of twenty-one years will be granted a discharge without the consent of his parents or guardian furnished in writing to the Dean. Students withdrawing are required to notify the University Office.

§ 2. COURSES OF INSTRUCTION

Courses designated by a single numeral are semester courses (odd numerals are employed for courses given in the first semester, and even numbers for courses given in the second semester). Year courses are designated by an odd numeral and an even numeral joined by a hyphen.

The credit allowed for each course is indicated in semester hours.

The courses are distributed into five major divisions as follows:

I. The Humanities.
II. The Natural Sciences and Mathematics.
III. The Social Sciences.
IV. Philosophy, Psychology, and Religion.
V. Physical Education and Hygiene.

I. The Humanities

Professors: Hill, Miller; Assistant Professors: Dorsey, Grubb, Lee,* Kuehner, Reynolds, Waring; Lecturer: Dickey; Instructors: Turpin, Carter

The division of the Humanities comprises the courses in English, Ancient Languages, Modern Languages, Music and Art.

ENGLISH LANGUAGE AND LITERATURE

1-2. Freshman English: Mr. Turpin and Mr. Carter. (Given each year) Credit: Six hours

A course consisting of a review of the principles of grammar, and a complete study of composition and rhetoric, together with collateral readings. It is required of all Freshmen.

3-4. English Literature: Mr. Hill and Mr. Turpin. (Given each year) Credit: Six hours

This course aims to survey the history of English literature from the earliest times through Milton (first semester) and from the Restoration to the close of the nineteenth century (second semester). Collateral readings and papers are required.

5-6. American Literature: Mr. Turpin. (Given each year) Credit: Six hours

A survey course in the history of American literature. In the first semester the literature from the settlement of North America to

* Absent on leave, 1940-41.
1870 is studied; in the second semester, the period from 1870 to the present is covered. Periodic papers are required. Open to Juniors and Seniors.

7-8. The Novel: Mr. Lee.  
(Given in 1941-42)  
Credit: Six hours

The development of the novel in England and America is given complete study from Defoe to George Eliot (first semester), and from George Meredith to the present time (second semester). In the second semester Continental authors such as Flaubert, Zola, Mann, Lagerlof, and Hamsun are studied for comparison. Lectures on the history and technique of the novel, the reading of at least thirty novels, and periodic papers constitute the work of the course.

9-10. Shakespeare and His Contemporaries: Mr. Hill.  
(Given in 1940-41)  
Credit: Six hours

The study of at least twenty plays, including a detailed analysis of six, with a survey of the life and times of Shakespeare, constitute the work of this course.

The second semester develops the general literature of the Elizabethan period; special attention is given to the development of the drama from its origin to the closing of the theatres in 1642. Among the authors studied are Spenser, Sidney, Lyly, Johnson, Marlowe, Webster, Beaumont, and Fletcher.

11. Seventeenth Century Literature: Mr. Hill.  
(Given in 1941-42)  
Credit: Three hours

A study of the major prose and poetry of the period with special attention to Jonson, Donne and the Metaphysical poets, the Cavalier poets, and Milton.

12. Restoration and Eighteenth Century Literature: Mr. Hill.  
(Given in 1941-42)  
Credit: Three hours

A study of the literature of the period 1660-1800, emphasizing the contributions of Dryden, Defoe, Swift, Pope, Dr. Johnson and His Circle, and Burns.

13. Nineteenth Century Prose: Mr. Hill.  
(Given in 1940-41)  
Credit: Three hours

From the rise of the periodical in English literature, through the essays of Carlyle, Ruskin, Arnold, Borrow, Bagehot, Pater and others.

(Given in 1940-41)

A careful study of the later poets of the nineteenth century from Tennyson and Browning to Thomson. Special attention will be given to the Pre-Raphaelites.
15. Contemporary Drama: Mr. Hill.  
(Given in 1941-42)  
Credit: Three hours

An opportunity to study carefully chosen plays from American, British, and Continental authors is given in this course. Approximately twenty-five plays are read. The cycles developed since 1880 in the drama of the Continent, significant points in the authors’ lives, and critical discussions of all plays, are stressed.

16. Middle English: Mr. Hill.  
(Given in 1941-42)  
Credit: Three hours

A study of Middle English with special readings from Chaucer (For English Majors.)

17. The Short Story: Mr. Turpin.  
(Given in 1940-41)  
Credit: Three hours

The history of the short story and its development from the earliest times to the present, emphasizing the technique of specific authors. The importance of the short story as a literary type is stressed.

18. Contemporary British Literature: Mr. Turpin.  
(Given in 1940-41)  
Credit: Three hours

Prose and poetry of the twentieth century, emphasizing the Celtic Renaissance. The Pseudo-scientists, Hardy, Kipling, Shaw, Galsworthy, Housman, Huxley, Lawrence, the War Poets, and Masefield, are studied.

19-20. Advanced Composition: Mr. Turpin.  
(Given in 1940-41)  
Credit: Six hours

Planned primarily as a laboratory for students who are already well-grounded in the principles of composition and who may have under consideration special projects in creative writing; research into the technical aspects of the major literary forms is required.

(Given in 1941-42)  
Credit: Six hours

SPEECH

1-2. Argumentation and Public Speaking: Mr. Hill.  
(Given in 1941-42)  
Credit: Six hours

During the first semester the principles of argumentation and debate are studied. Special attention is given to the composition and delivery of arguments, to group discussions and investigations. Fundamentals of speech, voice, diction, and gesture are emphasized in the second semester.

3-4. Dramatics: Mr. Hill.  
(Given in 1940-41)  
Credit: Six hours

The essentials in acting and play-production. Through lectures, but more specifically through laboratory work, a basic knowledge of dramatics is established.
GREEK LANGUAGE AND LITERATURE

In addition to elementary courses of twelve hours for those commencing their study of the language, the instruction offered includes twelve hours of advanced work in the College and eight hours of exegesis in the Seminary. The latter are listed on page 73.

1-2. Elementary Course: Mr. Miller.  
(Given each year)  
Credit: Six hours

Elementary grammar and reader for those who enter without Greek and wish to begin it in College. Four hours per week but carrying only three hours credit.

LATIN LANGUAGE AND LITERATURE

1-2. Latin A. Fundamentals: Mr. Miller.  
(Given each year)  
Credit: Six hours

An introductory course covering the essentials of grammar. Given four hours a week, but carrying only three hours credit.

3-4. Latin B: Mr. Waring.  
(Given each year)  
Credit: Six hours

Planned for students who have had two years of high school Latin, or who have completed Latin A.

CATALOGUE NUMBER

(Given each year)  
Credit: Six hours  
Planned for students who have completed three or four years of high school Latin or Latin B.

7-8. Mr. Miller.  
One of the following courses will be given each semester whenever there is a sufficient demand:  
a) Roman Satire.  
b) Tacitus and Suetonius.  
c) Cicero: Tusculan Disputations.  
d) Plautus and Terence.

11-12. Latin Literature in English: Mr. Miller.  
(Given in 1939-40)  
Credit: Six hours

FRENCH LANGUAGE AND LITERATURE

1-2. French A. Elementary French: Mr. Kuehner.  
(Given each year)  
Credit: Six hours

(Given each year)  
Credit: Six hours

5-6. French C. General Introduction to the Study of French Literature: Mr. Grubb.  
(Given each year)  
Credit: Six hours  
Careful study in class of selections from the outstanding works of French literature, supplemented by practice in composition.

7-8. French D: Mr. Waring.  
Credit: Six hours

First semester, Mediaeval French Literature. Readings from literature of this period supplemented by lectures.  
Second semester, Survey of 19th Century French Literature. Lectures, readings in class, and outside reading.  
The following courses may be given as needed:  
a) French literature during the Renaissance.  
b) The age of classicism.  
c) French literature in the 18th century.  
d) French drama during the 19th century.  
e) Lyric poetry in the 19th century.

11-12. French Dictation and Composition: Mr. Waring.  
(Given each year)  
Credit: Six hours  
Dictation from French phonograph records; practice in the writing of rather difficult composition.

GERMAN LANGUAGE AND LITERATURE

1-2. German A. Elementary German: Mr. Kuehner.  
Credit: Six hours  
During the first semester the essentials of grammar with em-
phasis on correct pronunciation. During the second semester reading of easy German is introduced.

3-4. German B. Intermediate German: Mr. Kuehner. 

Two hours a week are given to the reading of modern German texts, and one hour to grammar review and practice in speaking.

5-6. German C. Advanced German: Mr. Kuehner. 

A course for those able to read difficult German with some ease. Selections from the outstanding works of German literature. The content of the course changes from year to year, in order that those who desire may elect it twice and thus obtain twelve hours of credit in advanced German.

SPANISH LANGUAGE AND LITERATURE

(Given each year) Credit: Six hours

(Given each year) Credit: Six hours

5-6. Spanish C. Spanish Literature: Mr. Grubb. 

(Given each year) Credit: Six hours

Careful reading in class of texts chosen for their literary value. Reading outside the class period of assigned authors. The authors read vary from year to year in order to give those who elect the course twice a wide survey within the time assigned.

MUSIC AND FINE ARTS

The instruction offered in Music and Fine Art includes a course in Elementary Theory and Harmony given each year as a fundamental course. In addition thirty-four hours may be earned in this subject and six hours in the history of Fine Art. There is some extracurricular opportunity for practical work in chorus singing and instrumental playing.

1-2. Elementary Theory and Harmony: Mr. Dorsey. 

(Given each year) Credit: Six hours

Instruction in the rudiments of music including a study of the system of notation. Elementary harmony includes ear training in connection with the study of scales, intervals, triads and seventh and ninth chords and ends with the basic principles of modulation.

3-4. Advanced Harmony: Mr. Dorsey. 

(Given in 1941-42) Credit: Six hours

This course includes the study of all types of nonharmonic tones, chromatic harmony, remote modulation, figuration and advanced ear training. The technique of song writing is given and original composition in binary and ternary forms is required. Analysis.

Prerequisite: Course 1-2.

5-6. Counterpoint: Mr. Dorsey.  
(Given in 1940-41)  
Credit: Six hours  
A study of the various species worked in two or more voices. Motive development, imitation, invention and chorale elaboration. Analysis. Prerequisite: Course 1-2.

7-8. Composition: Mr. Dorsey.  
(Given in 1941-42)  
Credit: Six hours  
Counterpoint related to composition. Canon and fugue. Free composition in the various vocal and instrumental forms. Prerequisites: Courses 3-4, 5-6.

9-10. History and Appreciation of Music: Mr. Dorsey.  
(Given in 1940-41)  
Credit: Six hours  
A rapid survey of the musical history of Western Civilization including a general introduction to the appreciation of the representative types of music of the different musical epochs. Musical illustrations by phonograph, piano and voice.

11-12. Church Music: Mr. Dorsey.  
(Given in 1940-41)  
Credit: Four hours  
A course planned to meet the musical needs of those preparing for church leadership.

(Given in 1940-41)

17-18. The Appreciation of Art: Mr. Carter.  
(Given in 1940-41)  
Credit: Six hours

II. The Natural Sciences and Mathematics

President Wright; Professors: Cole, Grim, Haviland; Assistant Professor: Williams; Instructor: Gaskins.

The Division of Natural Sciences and Mathematics comprises the courses in Biology, Chemistry, Physics, and Mathematics.

BIOLOGY

1-2. General Biology: Mr. Grim and Mr. Williams.  
(Given each year)  
Credit: Eight hours  
A course in biology introducing the student to the structure, physiology and classification of life forms. Pre-requisite to all the subsequent courses. Two hours lecture and two hours laboratory.

3-4. Mammalian Anatomy and the Comparative Anatomy of Vertebrates: Mr. Grim and Mr. Williams.  
(Given each year)  
Credit: Eight hours  
During the first semester this course studies the gross anatomy of mammals, using the cat as material for dissection. During the
second semester the comparative anatomy of vertebrates is presented with special reference to the dogfish, perch, mud-puppy, turtle, bird and man. Two hours lecture and two hours laboratory.

5. **General Embryology**: Mr. Grim and Mr. Williams.
   
   *(Given each year)*  
   **Credit**: Four hours

   A course in chordate embryology comparative in the study of blastulation, gastrulation and organogeny. Two hours lecture and two hours laboratory.

   The course in Bacteriology is followed during the second semester of alternate years by Courses 6a and 6b.

6a. **Genetics**: Mr. Grim and Mr. Williams.

   *(Given in 1941-42)*  
   **Credit**: Four hours

   A study of fundamental genetics that includes the mechanics and physiology of inheritance with simple problems in dominance, hybrid and sex ratios, back-crossing, linkage, and crossing over. Two hours lecture and two hours laboratory.

6b. **General Bacteriology**: Mr. Grim and Mr. Williams.

   *(Given in 1940-41)*  
   **Credit**: Four hours

   A course devoted to the classification and physiology of typical micro-organisms important in disease, agriculture and sanitation. Two hours lecture and two hours laboratory.

7. **Parasitology**: Mr. Grim.

   *(Given each year)*  
   **Credit**: Three hours

   A course devoted to the consideration of mammalian parasites found in the protozoan, helminth and arthropod groups. Careful consideration is given to life history, control and treatment for the members of the above groups. Two hours lecture and one hour laboratory.

9-10. **Histology**: Mr. Grim.

   *(Given each year)*  
   **Credit**: Four hours

   A course in normal mammalian histology. One hour lecture and one hour laboratory.

11-12. **Botany**: Mr. Grim.

   *(Given in 1940-41)*  
   **Credit**: Six hours

   A course devoted to the study of general structures and physiology of plant life, the fundamental histories of the plant groups, with the identification of local flora by the use of the key. Two hours lecture and one hour laboratory.

---

**CHEMISTRY**

1-2. **General Chemistry**: Mr. Haviland and Mr. Gaskins.

   *(Given each year)*  
   **Credit**: Eight hours

   The course in General Chemistry aims to present the contributions of chemistry to human culture and to lay an adequate found-
The earlier part of the first semester will be devoted to Qualitative Analysis; the remaining portion of the course to Quantitative Analysis. Simple substances will be analyzed by methods which illustrate typical gravimetric and volumetric procedures. Two hours lecture and two hours laboratory. The work of the first semester may be counted as a half course by students not majoring in chemistry.

Prerequisites: Chemistry 1-2 and Mathematics 1-2.

5-6. Organic Chemistry: Mr. Gaskins.

(Given each year) Credit: Eight hours
The principal classes of aliphatic, aromatic and heterocyclic organic compounds are studied by means of lectures, recitations and laboratory work. Three hours lecture and two hours laboratory.
Prerequisite: Chemistry 1-2.

7-8. Elementary Physical Chemistry: Mr. Haviland and Mr. Gaskins.

(Given each year) Credit: Eight hours
Elementary properties of gases, liquids and solids; osmotic pressure and other properties of solutions; the phase rule; conductance, electromotive force; reaction velocity and catalysis. Three hours lecture and one hour laboratory.
Prerequisite: Chemistry 3-4.

9-10. Advanced Physical Chemistry: Lectures: Mr. Haviland; Laboratory: Mr. Gaskins.

(Given in 1940-41 and in 1941-42) Credit: Eight hours
The following topics are treated: The kinetic theory of gases, including the distribution laws of Maxwell and of Boltzmann; the first and the second laws of thermodynamics; chemical equilibrium, including electrolytic conductance and ionic equilibria; equilibrium between phases, including the phase rule and osmotic pressure; the thermodynamic properties of strong electrolytes, including the theory of Debye and Hückel; the rates of chemical reactions; and a brief introduction to the quantum theory. Text: T. J. Webb, *Elementary Principles in Physical Chemistry*. Three hours lecture and one hour laboratory.
Prerequisites: Chemistry 7-8 and Mathematics 3-4. Mathematics 5-6 is also recommended.

11-12. Biochemistry Laboratory: Mr. Williams.

(Given in 1940-41) Credit: Eight hours
Organic chemistry, course 5-6, is prerequisite.
This course covers in a general manner the chemistry of fats, carbohydrates and proteins; the physiology of the digestive system and the fate of foods taken into the body are discussed. The properties of fats, carbohydrates and proteins, analysis of urine, blood and milk are dealt with in the laboratory. The class is limited to twelve students. One hour lecture and six hours laboratory.

\textit{(Given in 1940-41)}  
Credit: One or more hours  
This course is intended for qualified students who wish further training in laboratory technique. It includes the preparation of complex cobalt, copper and other inorganic compounds.

**PHYSICS AND ASTRONOMY**

1-2. General Physics: Mr. Cole.  
\textit{(Given each year)}  
Credit: Eight hours  
Elective for all classes. First semester, Mechanics and Heat. Second semester, Electricity, Sound, and Light. Two hours lecture and two hours laboratory.

4. Alternating Currents: Mr. Cole.  
\textit{(Given in 1941-42)}  
Credit: Four hours  
This course deals with problems of A-C networks of both low and high frequency. Typical radio circuits and commercial power line practice furnish examples for study. Three hours lecture and one hour laboratory.

5. Light: Mr. Cole.  
\textit{(Given in 1940-41)}  
Credit: Four hours  
This course deals with the development of optical theory, paying special attention to geometrical optics, properties of waves, interference, diffraction, and polarization. Three hours lecture and one hour laboratory.

6. Electricity and Magnetism: Mr. Cole.  
\textit{(Given in 1940-41)}  
Credit: Four hours  
This course emphasizes the solution of problems of direct currents, and of the magnetic circuit of direct current machinery. The student is introduced to the vector method of solving problems involving alternating currents. Three hours lecture and one hour laboratory.

7-8. Theoretical Mechanics: Mr. Cole.  
\textit{(Given in 1940-41)}  
Credit: Six hours  
A problem course open to Juniors and Seniors who have a knowledge of differential and integral calculus. The topics studied include moments of inertia, central forces, friction, impact, and statics. Three hours lecture.
CATALOGUE NUMBER

   (Given in 1941-42)  Credit: Three hours  
   A course in descriptive astronomy, illustrated by lantern slides  
   and by the use of the telescope for observation of the heavens. Three  
   hours lecture.

    (Given in 1941-42)  Credit: Three hours  
   An elementary course in the theory and practice of photography.  
   Two hours lecture and one hour laboratory.

11. Meteorology: Mr. Cole.  
   (Given each year)  Credit: Two hours  
   A study of those phases of meteorology of particular interest to  
   the student of aviation.

MATHEMATICS

The instruction offered in mathematics includes six hours of  
fundamental instruction followed by eighteen hours of more advanced  
work.

1-2. College Algebra; Trigonometry: President Wright and Mr.  
   Cole.  
   (Given each year)  Credit: Six hours  
   This course is prerequisite to the courses in Chemistry and  
   Physics.

3-4. Plane Analytic Geometry; Elementary Calculus: President  
   Wright.  
   (Given each year)  Credit: Six hours  
   Open to students who have taken Course 1-2.  
   The first part of the course includes a study of the conic sections  
   and of the rigid motions of the plane. The second part treats limits,  
   continuity and the definition of the derivative for functions of one  
   variable; the derivatives of the elementary functions; inverse  
   functions; the mean value theorem of the differential calculus; indefinite  
   integrals; and a brief introduction to definite integrals; with appli-  
   cations, especially to geometry.

5-6. Solid Analytic Geometry; Intermediate Calculus: Mr. Havi-  
   land.  
   (Given in 1940-41)  Credit: Six hours  
   Open to students who have taken Course 3-4.  
   The first five weeks of the course are devoted to solid analytic  
   geometry; the remainder to the calculus. The topics studied include  
   systematic integration; multiple and iterated integrals; partial differen-  
   tiation; implicit functions; Taylor's theorem for several variables;  
   line and surface integrals and the theorems of Green and Stokes;  
   and definite integrals containing a parameter.
(Given in 1941-42)  
Credit: Three hours  
Open to students who have taken Course 3-4.  
An introductory treatment of infinite series and products including Fourier's Series, followed by an introduction to ordinary and partial differential equations, with special emphasis on methods of solution.

8. Advanced Algebra: Mr. Haviland.  
(Given in 1941-42)  
Credit: Three hours  
Open to students who have taken Course 3-4.  
The topics studied include the Euclid Algorithm and its applications, theory of equations, the Fundamental Theorem of Algebra, and elements of the theory of matrices and of groups.  
(Theoretical Mechanics. See Physics 7-8).

(Given each year)  
Credit: Two hours  
The principles of navigation adapted to the particular needs of the airplane pilot.

III. The Social Sciences and Education  
Professors: Foster, Furth, Wilson; Assistant Professors: Davis*, Reynolds; Instructors: Still, Holland, Bailey, Newton

The Division of the Social Sciences and Education include the courses in Economics, Sociology, History, Political Science, and Education.

ECONOMICS

1-2. Elementary Economics: Mr. Furth.  
(Given each year)  
Credit: Six hours  
The completion of the course is a prerequisite for all the following courses, except Economic History and Principles of Accounting. The course includes, during the first semester: population and natural resources, money and banking, value and price theory; during the second semester: capital and labor, international economic relations, economic fluctuations, and economic planning. Open to sophomores and upper classmen.

3. Economic History of the U. S.: Mr. Furth.  
(Given in 1940-41)  
Credit: Three hours  
Open to Freshmen.

4. Labor Economics: Mr. Furth.  
(Given in 1940-41)  
Credit: Three hours  
Prerequisite: Elementary Economics. Open to upper classmen only.

* Absent on leave, 1940-41.
5. History of Economic Thought: Mr. Furth.  
*(Given in 1941-42)*  
Credit: Three hours  
Prerequisite: Elementary Economics. Open to upper classmen only.

6. Modern Economic Thought: Mr. Furth.  
*(Given in 1941-42)*  
Credit: Three hours  
Seminary, open to a limited number of upper classmen. Pre-requisite: Elementary Economics and History of Economic Thought. Thesis required.

*(Given in 1940-41)*  
Credit: Six hours  
Prerequisite: Elementary Economics and American Government. The course includes, during the first semester: price policy, with special attention given to the problems of monopolies and public utilities; during the second semester: international trade policy and business cycle policy. Open to upper classmen only.

9. Money and Banking: Mr. Furth.  
*(Given in 1941-42)*  
Credit: Three hours  
Prerequisite: Elementary Economics. Open to upper classmen only.

10. Public Finance: Mr. Furth.  
*(Given in 1941-42)*  
Credit: Three hours  
Prerequisite: Elementary Economics. Open to upper classmen only.

11. Principles of Accounting: Mr. Furth.  
*(Given in 1941-42)*  
Credit: Three hours  
The course is not intended to train accountants, but to acquaint students of economics with the basic problems of accounting theory and practice. Open to Freshmen.

12. Corporation Finance: Mr. Furth.  
*(Given in 1941-42)*  
Credit: Three hours  
Prerequisite: Elementary Economics and Principles of Accounting. Open to upper classmen only.  
*(Social Security Administration. See Political Science 17-18.)*

SOCIOMETRY

1-2. Principles of Sociology: Mr. Furth and Mr. Holland.  
*(Given each year)*  
Credit: Six hours  
The completion of this course is a prerequisite for all the following courses. Open to Freshmen.

3. Social Psychology: Mr. Furth.  
*(Given in 1940-41)*  
Credit: Three hours  
Prerequisite: Principles of Sociology or Educational Psychology or General Psychology.
4. **Criminology**: Mr. Furth.  
   (Given in 1940-41)  
   **Credit**: Three hours  
   **Prerequisite**: Principles of Sociology and Social Psychology.

6. **Marriage and Family**: Mr. Holland.  
   (Given in 1941-42)  
   **Credit**: Three hours  
   **Prerequisite**: Principles of Sociology.

7. **Anthropology**: Mr. Foster.  
   (Given in 1941-42)  
   **Credit**: Three hours  
   The study of primitive society by means of text-book, collateral reading, and term papers.

8. **Race Relations**: Mr. Foster.  
   (Given in 1941-42)  
   **Credit**: Three hours  
   This course applies to the race problems of the United States, in particular to the race problem of the Negro, the principles learned in the courses in Economics and Sociology. These race problems are studied in their relation to those of the world at large. The method of instruction is by syllabus, collateral reading, term papers and discussions.

9. **Rural Sociology**: Mr. Holland.  
   (Given in 1941-42)  
   **Credit**: Three hours  
   **Prerequisite**: Principles of Sociology.

10. **Urban Sociology**: Mr. Holland.  
    (Given in 1941-42)  
    **Credit**: Three hours  
    **Prerequisite**: Principles of Sociology.

12. **Problems of Poverty**: Mr. Newton.  
    (Given in 1940-41)  
    **Credit**: Three hours  
    **Prerequisite**: Principles of Sociology.

13-14. **Methods of Social Research**: Mr. Foster.  
   (Given in 1940-41)  
   **Credit**: Six hours

**HISTORY**

1-2. **European History**: Mr. Reynolds.  
   (Given each year)  
   **Credit**: Six hours  
   The first semester covers the period, 1500-1815, the development of Europe from the Middle Ages to the Treaty of Vienna. The rise of commerce, culture, and nations is studied. The second semester covers the period from 1815 to the present, and considers the industrial revolution, the growth of nationalism and democracy, and the causes and effects of war during the last two centuries. Open to Freshmen.

3-4. **The World Since 1914**: Mr. Still.  
   (Given in 1940-41)  
   **Credit**: Six hours  
   The following topics are studied: the peace treaties, the League of Nations, internationalism, economic nationalism and self-suffi-
iciency, Communism, Fascism, National Socialism, alliances since the war, aggressions, etc.

5-6. Ancient Civilization: Mr. Foster.  
(Given in 1941-42)  
Credit: Three hours

7-8. Mediaeval Civilization: Mr. Foster.  
(Given in 1941-42)  
Credit: Three hours

9-10. English History: Mr. Still.  
(Given in 1941-42)  
Credit: Six hours

A survey course for Freshmen and Sophomores. The first semester traces English history to 1714, studying the fusion of the races that compose the English nation with the consequent blending of languages, customs, laws, and cultures. Emphasis is placed on the growth of Anglo-Saxon institutions, freedom, and rights, and the development of Parliament. During the second semester the topics studied include England's economic development and commercial expansion, colonization, imperialism and expansion, the continued development of Parliament, the growth of democracy, and the role of England in the national state system of Europe.

11-12. American History: Mr. Foster.  
(Given in 1941-42)  
Credit: Six hours

Open to Juniors and Seniors. The period 1492-1852 is covered, and the following topics are considered: the origins of American history in the post-mediaeval expansion of Europe; the institutional, economic and social life of the colonies and its later development. During the second semester the period covered is 1852-1936. Intensive study is given to the conflicting interests of the North and South.

(Given in 1940-41)  
Credit: Three hours

Prerequisite: American Government and International Relations or Economic History of the U. S. Open to upper classmen only.

15-16. Historical Methods: Mr. Foster.  
(Given in 1940-41)  
Credit: Three hours

This course aims to introduce the student to the technique of historical research, the making of bibliographical guides, the schools of historical interpretation, with illustrative examples. Each student is assigned a problem in some aspect of historiography.

POLITICAL SCIENCE

(Given in 1940-41)  
Credit: Six hours

The topics studied during the first semester are: the origin of American democratic government; the theory, constitutional history, organization and powers of the various national structures; the latest governmental trends, especially the administrative. During the second semester the topics studied are: the origin and development of state
constitutions; the state executives; the relation of the state and federal governments; state politics; the state's relation to business, etc.

3-4. Comparative Government: Mr. Davis.  
(Given in 1941-42)  
Credit: Six hours

During the first semester the governmental structures and practices of the European democracies are studied; during the second semester the theory and methods of the contemporary dictatorships are examined.

5-6. Municipal Government and Administration: Mr. Newton.  
(Given in 1940-41)  
Credit: Six hours

During the first semester the course includes the origin and history of municipal government; its relation to the state; its structures and problems. During the second semester attention is directed to municipal administration: organization; taxation; finances; public utilities; city planning; social and welfare activities, etc. A thesis is required each semester.

7-8. The History of American Political Thought: Mr. Davis.  
(Given in 1941-42)  
Credit: Six hours

This course is a survey of main currents in American thought, mainly political, from Governor Winthrop, John Cotton, and Roger Williams, to Franklin D. Roosevelt. Especially recommended for students of American Literature, History, Economic and Social Theory, and Philosophy. Text: Parrington, Vols. I and II. Open to upper classmen.

(Given in 1940-41)  
Credit: Three hours

The interpretation of the Constitution by the Federal Courts. Lectures and reading of selected cases. Thesis required.

11. International Relations: Mr. Furth.  
(Given in 1940-41)  
Credit: Three hours

Prerequisite: American Government. Open to upper classmen only.

(Given in 1941-42)  
Credit: Three hours

This is a general introductory course. Such subjects will be covered as types of governments; the origin of American government; the theory, constitutional history, organization and powers of the three branches of our government; a bare outline of the workings of national and state government and of political parties; and a brief description of the administrative side of government, especially with regard to latest trends. Text: Ogg and Ray, Essentials of American Government. Open to Freshmen and Sophomores.

14. Political Parties and Public Opinion: Mr. Davis.  
(Given in 1941-42)  
Credit: Three hours

The topics studied will include electoral problems and techniques;

the history, organization and function of political parties; an analysis of machines, pressure groups, etc.; problems of political behavior; and an analysis of public opinion including methods of measuring public opinion, its creation, its manipulation, its role in a democratic government, etc. Text: Brooks, Political Parties and Electoral Problems, or Sait, American Parties and Elections, or Odegard and Helms, American Politics. Open to Freshmen and Sophomores.

15-16. Public Administration: Mr. Davis.*  
(Given in 1941-42)  
Credit: Six hours

This course will place the emphasis on national administration. It will treat the relationships of administration to the legislature, the executive and the courts. Control and coordination within administration will be of main interest. Here the course will deal with the personnel and fiscal management, the structure and organization of the administration, the relationship of administration to groups, administrative regionalization, and federal-state administrative relations. Text: White, Introduction to Public Administration. Prerequisite: Political Science 1. Open to Juniors and Seniors; of interest to all students of the social sciences.

17-18. Social Security Administration: Mr. Davis.*  
(Given in 1941-42)  
Credit: Six hours

This course will review the history, function, statutory structure, fiscal policy, benefit structures and governmental relationships of the social services of England, Germany and the United States, including unemployment insurance, relief, old age insurance, workmen’s compensation, health and invalidity insurance, work projects, public health services, aid to the blind, indigent, dependent children, etc. On the administrative side much emphasis will be placed on the functional and coordinative aspects, but techniques of administrative management in the case of social security in the United States will be given close attention. Prerequisites: Economics 1-2, or Political Science 1-2, or Sociology 1-2. Open to Juniors and Seniors.

EDUCATION

The courses in education aim in general to acquaint the student with the principles governing the growth of personality, with the role of education in the process of civilization; and in particular to meet the formal requirements of the various states for certification to teach in the secondary field.

1. Introduction to Teaching: Mr. Wilson.  
(Given in 1941-42)  
Credit: Three hours

The function of the school in society; the role of the teacher; the qualifications, responsibilities, and problems of the teacher in relationship to the pupil and the social order. Open to Juniors and Seniors.

* Absent on leave, 1940-41.
*(Given in 1940-41)*  
Credit: Three hours  
The method of the teacher in high school; class room management; instructional materials; the guidance of the learning experience. Open to Juniors and Seniors.

*(Given in 1940-41)*  
Credit: Three hours  
The origin and development of secondary schools in the United States. The specific function of secondary schools, and comparative study of similar schools in England and other European countries. Open to Juniors and Seniors.

4. Public School Administration: Mr. Wilson.  
*(Given in 1940-41)*  
Credit: Three hours  
The functions, qualifications, and responsibilities of teachers, school officials, and board members, ranging from the city or rural school to the state department of public instruction; the support, control and organization of education in a democracy. Open to Juniors and Seniors.

6. Adult Education: Mr. Wilson.  
*(Given in 1940-41)*  
Credit: Three hours  
A survey of present programs of adult education: its types, methods, sponsorship, and underlying philosophy. Open to Juniors and Seniors.

7. Problems in Higher Education: Mr. Foster and Mr. Wilson.  
*(Given in 1941-42)*  
Credit: Three hours  
A study of current developments in institutions of higher education, evaluated as to curriculum, administration, and organization, in view of the function of higher institutions in a democracy. Open to Juniors and Seniors.

8. Educational Sociology: Mr. Foster.  
*(Given in 1939-40)*  
Credit: Three hours  
The application of sociological theory and practice to the problems of the secondary school as a medium through which society perpetuates itself. Open to Sophomores, Juniors, and Seniors.

*(Given in 1941-42)*  
Credit: Three hours  
An appraisal of current educational philosophies in their bearing on the aims of schools. Open to Juniors and Seniors.

*(Given in 1941-42)*  
Credit: Three hours  
The origin and development of the publicly supported schools and colleges in the United States in view of the history of American culture. Open to Sophomores, Juniors and Seniors.

(Given in 1940-41) Credit: Three hours

(Given each year) Credit: Two hours
IV. Philosophy, Psychology, and Religion

Professors: Johnson, Wilson and Acting Professor Feser

PHILOSOPHY

The courses in Philosophy aim to give the student an introductory knowledge of each of the four main fields of philosophic reflection: Theory of Knowledge, Ethics, Esthetics, and Metaphysics, together with the History of Philosophy. These courses are given through a cycle so that the student who majors in Philosophy, has the opportunity during his undergraduate course to acquire a basic acquaintance with the entire field.

The courses given during 1940-1941 are the following:

1. Introduction to Philosophy: Mr. Johnson.  
   Credit: Three hours

   A survey course in the theory of knowledge and the applications of the results obtained to science, religion, metaphysics, and social and economic problems. Selected readings in the relevant literature with reports and discussions are required.

2. The History of Philosophy in America: Mr. Johnson.  
   Credit: Three hours

   This course surveys the development of Philosophy in America from the Puritans to the present. The student will be directed to the cultural, social, and religious development, of which the thinkers studied were the philosophic reflection. Special attention will be given to Edwards, Peirce, Royce, James and Dewey.

3. Logic: Mr. Johnson.  
   Credit: Three hours

   This course surveys the Aristotelian logic and traces its development into the modern symbolic logic. The student is trained in present day postulational technique and the nature of deductive systems.

4. The Philosophy of Science: Mr. Johnson.  
   Credit: Three hours

   The scientific development of human experience, from classical mechanism to the recent hypotheses of relativity and indeterminancy. The student is required to read collaterally a number of contemporary books on the topic and to report on the readings in seminar discussions.

5-6. Recent Philosophy: Mr. Johnson.  
   Credit: Six hours

   This course extending through two semesters studies outstanding contributions to recent Idealism, Realism, Pragmatism, and Neo-Scholasticism. Two lectures and two hours of supervised reading each week.

PSYCHOLOGY

The instruction in Psychology offers six hours in General Psychology as basic prerequisite for the other courses, and six hours of more advanced work. Collateral courses are given under Sociology 3, and Education 13-14, and 16.

1-2. General Psychology: Mr. Wilson.  
(Given each year)  
Credit: Six hours

The first semester is given to an introductory study of general psychology designed to prepare for more advanced work on the subject. During the second semester the principles learned are studied in greater detail and application.

(Given in 1940-41)  
Credit: Three hours

A course arranged for students planning to enter the professions of medicine, law, the ministry, or to engage in business, who desire to know the practical application of Psychology. Lectures, demonstrations, practical observations and reports, with collateral readings from psychological writings. Psychology 1-2 is prerequisite.

4. Abnormal Psychology: Mr. Wilson.  
(Given in 1940-41)  
Credit: Three hours

The relation of abnormal and normal life and behavior; the physical basis of consciousness and the mechanicism of behavior; theories of the unconscious, motivation, association, memory, intelligence; character, temperament, and their abnormalities. Prerequisite Psychology 1-2.

5. The Psychology of Adjustment: Mr. Wilson.  
(Given in 1941-42)  
Credit: Three hours

A theoretical and clinical study of mental and personality adjustments in the process of development.

RELIGION

This course, given in the study of the instructor, is for upper classmen, preferably those considering a religious calling, the total number not to exceed twelve.

7. The Bible and Contemporary Social Problems: Mr. Rooks.
   (Given in 1941-42) Credit: Two hours
   This course is open without restriction to all students.

8. Christian Doctrine: Mr. Johnson.
   (Given in 1941-42) Credit: Three hours

12. Religious Education: Mr. Wilson.
   (Given in 1941-42) Credit: Two hours
   A survey course in the methods of teaching religion in church schools; an examination of the programs of churches in relation to individual and community needs.

V. Physical Education

Assistant Professor: Rivero; Instructor: Holland; University Physician: Dr. Hawkins

The instruction in Physical Education includes two hours in Hygiene required for Freshmen, supervised work in physical exercise also required for Freshmen, but open to any who may wish to participate, with no assigned credit in hours, and in addition six hours carrying credit planned for students who wish to include in their work for the teaching certificate specialized instruction in the practical conduct of physical work in high schools.

1a-b. Hygiene: Dr. Hawkins.
   (Given each year) Credit: Two hours
   Course required for Freshmen, but open to all who may desire to take it. The principles of health and the correct management of bodily functions. The course is repeated each semester.

3-4. Physical Exercise: Mr. Rivero and assistants.
   (Given each year) No assigned credit
   Course required for Freshmen, but open to all students. Gymnastic exercises and drills, instruction in the playing of games. Outdoors during the early fall and spring, indoors in the gymnasium during the winter.

5. Physiological Hygiene: Mr. Rivero.
   (Given in 1940-41) Credit: Three hours
   A course dealing with the functions of the human body and their relation to individual health and efficiency.

*(Given in 1939-40)*

In this course one hour is given to the care and prevention of injuries, especially in the case of children and athletes. The principles of First Aid will be studied, and the American Red Cross Certificate may be obtained by those who pass a satisfactory examination. The remaining two hours will consider by means of lecture, practice, demonstration and observation, the programs and problems of physical education in Junior and Senior High Schools.

*(Given in 1940-41)*

A course in the theory and methods of physical education; the relation of physical education to the general field of education; the specific activities of physical education; its aims, and the problems that require study.

8. Exercise and Its Physiology: Mr. Rivero.

*(Given in 1940-41)*

The function of the human body and the mechanism of bodily movements.

*(Given in 1941-42)*

Prerequisite: At least one course in Physical Education.

*(Given in 1940-41)*

This course includes the selection and presentation of activities in Physical Education. Useful teaching techniques are considered. Activity programs for large and small groups are given special attention.

VI. Aviation

Professors: Cole, Haviland

In cooperation with the Civil Aeronautics Administration of the United States Department of Commerce the University offers a course in the theory and practice of aircraft operation. Candidates for this training are selected on a basis of scholastic ability, judgment, and excellent physical condition. The course includes a ground school of 6 semester hours in the subjects of Meteorology, Navigation, Civil Air Regulations and Theory of Flight, and from 35-45 hours of flight training. Completion of the course leads to the securing of a private flying license.

In the interests of national defense the major part of the cost of the course is supplied by the United States Government. Therefore
candidates pledge themselves to apply for service in the armed forces of the nation.

A Student Pilot Certificate, CPT grade, issued by an approved medical examiner, is prerequisite for candidates for the complete course. Meteorology and Navigation are elective for other students with the necessary background in Mathematics and Physics.

Meteorology. See Physics 10.

Civil Air Regulations and Theory of Flight. This part of the training is given by instructors approved by the University, and the flight contractor, and certified by the Civil Aeronautics Administration.

§ 3. COURSES OF STUDY

THE GENERAL CLASSICAL OR CULTURAL COURSE

The general classical or cultural course may be followed by those who do not wish to submit themselves to a professionally controlled curriculum. It may be adapted without difficulty to majors in the non-professional or vocational field.

This course as it stands represents a cultural emphasis on English and the Classics. It may be modified to emphasize other cultural subjects as follows:

1. Substitute another subject for English beginning with Junior Year.

2. Substitute another subject for either Latin or Greek, but not for both, beginning with the Junior Year.

3. The Modern Language laid down pre-supposes two years' work in one modern language in high school, and the consequent ability at the close of Sophomore Year to use that language as an instrument of information. If desired, another modern language may be begun in Sophomore Year and carried through to the end of Senior Year, or the same foreign language can be carried for four years.

Eight semester hours in Bible must be carried to fulfill the requirements for the degree.

The non-professional courses that may be substituted according to the major emphasis desired are: Economics, History, Mathematics, Music, Philosophy, Religion, Sociology.

The general course is the best preparation known for graduate study in preparation for teaching, business, and all the branches that have to deal with man's cultural life.

I. Preparation For the Study of Medicine

The Council on Medical Education of the American Medical Association sets forth the following as minimum requirements for admission to a Class A medical school:

<table>
<thead>
<tr>
<th>Required Subjects</th>

</tr>
<tr>
<td>German (f)</td>
<td>20</td>
<td>1-2, 3-4, 5-6</td>
</tr>
</tbody>
</table>

Subjects Strongly Urged:

- Advanced Biology ........ 3-6
- Psychology and Logic ... 3-6
- Algebra and Trigonometry 3-6
- Additional Chemistry .... 3-6

Other suggested Electives:

- English (additional), Economics, History, Sociology, Political Science, Mathematics, Latin, Greek, Drawing.

(a) Chemistry. Twelve semester hours required, of which at least eight semester hours must be in general inorganic chemistry, including four semester hours of laboratory work, and four semester hours in organic chemistry, including two semester hours of laboratory work. The College of Medicine, Howard University, strongly advises a course in Quantitative Analysis (Lincoln University, Chemistry 3-4), and also a course in Physical Chemistry (Lincoln University, Chemistry 7-8).

(b) Physics. Eight semester hours required, of which at least two must be laboratory work. Lincoln University requires, what the Council on Medical Education urges, that this course be preceded by Mathematics 1-2. College Algebra and Trigonometry.

(c) Biology. Eight semester hours required, of which four must consist of laboratory work. The Howard University College of Medicine recommends that in addition the student elect Comparative Anatomy and General Embryology. Lincoln University, Biology 3-4 and 5-6, satisfy the recommendations.

(d) English. Composition and Literature. The usual introductory college course of six semester hours or its equivalent. The Howard University College of Medicine and the Meharry Medical College require eight semester hours.

(e) Foreign Language. A reading knowledge of one modern foreign language. This should be gained by a year's study in college if the student presents two years' for entrance. The courses taken in
French or German should be adjusted to continue the language begun in high school at the level there completed. The Meharry Medical College requires at least eight semester hours in a modern foreign language.

(f) Electives. The best medical schools give the preference to students who have completed the entire four years' course leading to the degree.

Taking these prescribed premedical requirements, together with the normal requirements of the College Department for the degree of Bachelor of Arts, the student who intends to enter medical school should adjust his schedule as follows:

<table>
<thead>
<tr>
<th>Freshman Year</th>
<th>Sophomore Year</th>
<th>Junior Year</th>
<th>Senior Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>English 1-2</td>
<td>General Chemistry or General Biology</td>

<td>French or German</td>
<td>Two electives</td>
<td></td>
</tr>
<tr>
<td>Bible and Hygiene</td>
<td>One elective</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In choosing the electives keep in mind:
- Some medical schools require 8 semester hours in English.
- Some medical schools require one year in Latin.
- Lincoln University requires eight semester hours in Bible.
- The medical schools strongly recommend as electives: History (take in Freshman year); Economics (take in Sophomore year); Psychology and Logic (take in Sophomore year); Sociology (take in Junior year).

### II. Preparation For the Study of Law

The Association of American Law Schools, composed of the eighty leading law schools of the country, suggest that the principal aim of the college course should be to give the student a thorough mental training by means of such fundamental subjects as English, History, the Natural and Social Sciences and Foreign Languages.

The student who wishes to enter upon the study of law after completing his undergraduate course should include in his electives the following subjects: Argumentation and Debating, Economics, English, History, Philosophy, Logic, Political Science, Public Speaking, Sociology, and Latin.

In choosing the electives note: Lincoln University requires eight semester hours in Bible, and a year of laboratory science before the end of Sophomore year.

A combined course in Arts and Theology leading to the degrees of A.B. and S.T.B. may be taken under the following conditions:

1. Candidates must be members of the Junior or Senior classes of the College.
2. Their general average must not fall below 2.50.
3. They must complete at least five courses from the following:
   - Christian Doctrine
   - Christian Evidences
   - Philosophy of Religion
   - Sociology and Race
   - Religious Education
   - Comparative Religion
   - New Testament Greek
   - Elementary Hebrew
   - Relations
4. The work must be completed in the sequence, College four years, Seminary two years, before the degrees are granted.

IV. Preparation For Teaching

The courses in education given in the college department are intended to qualify the student to receive the “Provisional College Certificate” issued by the Department of Public Instruction, Commonwealth of Pennsylvania. This certificate enables the holder to teach for three years in any public high school of the Commonwealth the subjects indicated on its face. The applicant must be a graduate of an approved college or university and must have successfully completed at least eighteen semester hours of work of college grade in education distributed as follows: Introduction to Teaching, 3 semester hours; Educational Psychology (General Psychology is a prerequisite), 3 semester hours. Practice Teaching in the Appropriate Field, 6 semester hours. Electives in Education, 6 semester hours selected from the following list: Secondary Education, Elementary Education, School Efficiency, Special Methods, School Hygiene, Educational Administration, Educational Measurements, Educational Sociology, Educational Systems, History of Education, Principles of Education, Educational Psychology, Technique of Teaching.

It is also possible for the student to qualify for high school teaching in other states by adapting his electives in education to include the subjects required. For details of these requirements consult the University Office where the requirements are kept on file.

§ 4. GENERAL REGULATIONS CONCERNING THE COURSES OF STUDY

ELECTION OF COURSES

Before final choice of elective studies, all students should consult the instructor in charge of their major study, and in case of any doubt, the instructors in charge of particular courses as well. All electives should be chosen in accord with the plan suggested by the major study and by the cultural and professional interests of the student. Conflicts between courses should be avoided by a careful study of the scheme of mutually exclusive examination groups constructed by the administrative officers in order to make possible as large a selection of harmonious elective courses as possible that do not conflict in hours with one another or with the required courses. The student is advised not to make his selection of electives on a one-year basis only, but to think in terms of three or four years continuously successive work.

Attention should also be given to the following regulations:

1. No credit will be given for any course unless it is properly scheduled in the office and recorded at the beginning of the semester.

2. If for any reason a student drops a course without obtaining the consent of his instructor and the Dean of the College, he will be marked Sf in that course.

3. A student may be dropped from a course at any time upon recommendation of the instructor and with the consent of the Committee on Curriculum. In this case his grade will be 5f.

4. If a student is compelled to withdraw or drop courses because of illness or conditions beyond his control, he will simply be marked absent.

5. A student inexcusably absent from an examination will be marked 5f. No student may absent himself from a term examination.
without a written excuse from the Dean of Men. A student duly ex-
cused from an examination will be given opportunity to pass it at a
future date without fee. If he fails to take it then, he must either
repeat the course or lose credit.

6. No student may take less than four courses in any semester,
nor more than five courses, without the consent of his adviser and
the Dean of the College.

7. Changes may be made in the selection of electives up to and
including the fourth calendar day after the beginning of the semester.
Thereafter changes may be made only with the approval of the Com-
mittee on Curriculum.

8. Students transferring to the College Department of Lincoln
University will be held to the requirements for the degree. They
will not be exempt from the major in which at least twelve hours
must be taken at the Lincoln University, nor from the laboratory
science and its prerequisites or the requirement in foreign language.
No exceptions will be granted to these regulations save by vote of
the Faculty upon recommendation of the Committee on Admissions.

CLASSROOM ATTENDANCE

Students are expected to attend every class exercise.

To provide for absences due to temporary illness and extra-curri-
cular activities, students are allowed, without question, a number of
absences each semester equal to the number of credit hours in the
course, that is 2 absences in a 2 hour course, 3 in a 3 hour course,
and 4 in a 4 hour course.

If a student exceeds this allowance the instructor along with the
Dean of Men will decide whether or not he shall be dropped from
the course. The decision will be based upon the total number of
absences and the reason for them, as well as upon the academic
standing of the student.

Absences are counted from the opening day of each semester,
whether the student registers on that day or later. No student will
be dropped from a course merely on account of absences incurred up
to the day of his registration.

Absences immediately before or after a vacation render the stu-
dent subject to a fine unless excused by the Dean of Men.

CHAPEL ATTENDANCE

University assemblies are held Tuesday to Friday inclusive, from
10:00 to 10:30 a.m. The exercises are for the most part devotional in
character. One meeting a week may be devoted to the discussion of
University problems.

Every Sunday morning at 11:00 o'clock divine worship is con-
ducted in the University Chapel. The officiating clergymen are mem-
bers of the Faculty or guest-preachers invited for the occasion. The
music is led by the University choir under the direction of the Mu-
sical Director.
Lower class men are required to attend three-fourths of these services; upper class men one-half.

Students, who do not observe these regulations, may be denied advancement or continuance in the University upon recommendation by the Chapel Committee to the Faculty.

Attendance within these regulations will be required of all men who receive scholarships, work, or any other form of student aid.

EXAMINATIONS

Two series of stated examinations are held each year, one, the mid-year examinations, at the end of January, and the other, the final examinations, at the end of May.

Special examinations are held as soon as possible after the University opens in September, and after the opening of the second semester. They are open to students who have made 5c in any course during the previous semester, and to students who have been absent for reasons beyond their control from the stated examinations, provided their work during the semester has been satisfactory. Special examinations may not be taken save by permission of the Committee on Curriculum, and if they are for the removal of a grade of 5c, a fee must be paid to the Business Manager before the student is admitted to the examination room.

All conditional failures must be removed within six months after being incurred or no credit will be allowed for the course. Not more than one conditional examination is allowed. To remove a condition the average of the term grade and the conditional examination grade combined in the ratio of three to one must reach 60 per cent.

GRADERS, CREDIT, AND ADVANCEMENT

The student's performance in a course is rated according to the following grades: 1, excellent; 2, good; 3, fair or average; 4, poor; 5c, conditional failure (may be removed by passing a re-examination); and 5f, complete failure (may be removed by repeating the course and passing the final examination). The mark Incomplete is given only when the student has obtained, in advance, the permission of the instructor to postpone for a short time the submission of certain outstanding work which must be turned in before a specific grade can be reported. Under the regulations of the Faculty, outstanding work that is not completed within three weeks after the end of the semester automatically becomes a 5c.

Group 1 contains not more than 10 per cent of the class; Group 2, not more than 20 per cent; and Group 3, not more than 50 per cent. Any student who cannot pass 60 per cent of the paper set for examination is marked failure.

The general group standing of a student and consequently his rank in his class, is determined by multiplying the group number reported for each course by the number of hours per week the course is given, and then dividing the sum of the products by the sum of
the multipliers. The quotient will indicate the general group of the student in question. The limit for the first general group is 1.30; for the second general group, 2.20; for the third general group, 3.20; and for the fourth general group, 4.20.

When the semester closes the grades made are entered on the records, and will not be altered nor recomputed because of any work the student may complete subsequent to the semester in question.

The Freshmen and Sophomores constitute the lower classes; the Juniors and Seniors the upper. No Freshman will be advanced to the Sophomore class until he has passed his assigned work in physical education, and satisfied all entrance conditions. At the end of Sophomore year the record of all students will be carefully examined, and only those who have a general average of group 3 and who show promise of future development will be advanced to the upper classes.

CLASSIFICATION OF STUDENTS

Matriculated students, whose record as to entrance conditions and the completion of prescribed work is satisfactory, are classified as follows:

**Freshmen**: those who have completed less than 9 courses or 27 semester hours.

**Sophomores**: those who have completed more than 9 courses or 27 semester hours, but less than 20 courses or 60 semester hours.

**Juniors**: those who have completed more than 20 courses or 60 semester hours, but less than 30 courses or 90 semester hours.

**Seniors**: those who have completed more than 30 courses or 90 semester hours.

**Special**: students who do not satisfy the entrance conditions or the requirements of the curriculum. Such students are admitted only by special action of the Committee on Curriculum, and may not be candidates for the degree.

**Unclassified**: students who have transferred from other colleges, but whose advanced credit has not yet been evaluated.

**Conditioned**: Freshmen who although graduates of approved high schools have not yet completed courses which Lincoln University judges necessary prerequisites for the course leading to the Bachelor of Arts degree.

**Auditors**: students who are allowed to attend the classes, but who are not permitted to take the examinations nor to receive credit.

PROBATION AND DISMISAL

It is not the policy of Lincoln university to co-operate with students after it has become evident that they are either unwilling or unable to maintain reasonable standards of work.

Students who fail to pass as many as three courses in any semes-
ter with three different instructors, and provided that the failures amount to 50 per cent of the total number of semester hours each is taking, are not allowed to continue.

If conditions cumulate twenty semester hours the student is not allowed to continue.

Students who in the semi-annual examinations receive a grade of general Group 4 are placed on probation, and if during the following semester they do not show improvement, they may be required to withdraw from the University.

§ 5. REGULATIONS GOVERNING THE AWARDING OF THE DEGREE OF BACHELOR OF ARTS

The courses required of all candidates for the degree are:

- English .................. 6 semester hours
- English Bible .................. 8 hours
- Natural Science, Psychology, Mathematics,
  Logic: one of these .................. 6 hours
- Economics, History, Political Science,
- Sociology .................. 6 hours
- Hygiene .................. 2 hours
- Foreign Language, one foreign language .... 18 hours

(At least two years beyond the elementary year taken either in preparatory school or college.)

All other work is elective but must include:

- A major subject of not less than ............ 18 hours
- A first minor of not less than ............ 12 hours
- A second minor of not less than ............ 12 hours

The work in the major subject and the minors must not begin until the Sophomore year.

The courses are divided into two groups: lower class courses open to Freshmen and Sophomores, and upper class courses open only to Juniors and Seniors.

The work in physical training is required of all Freshmen.

Each candidate for graduation must complete not less than 124 semester hours (laboratory periods usually counting ½ an hour) exclusive of the requirements in physical education, with a general group standing of not less than 3.20. Eight semesters' residence is also required. To be counted in residence for a semester a minimum of 12 hours must be successfully completed.

Upon the satisfactory completion of these requirements, the student is recommended by the Faculty to the Trustees of The Lincoln University for the degree of Bachelor of Arts. Diplomas are issued only at the June Commencement, although it is possible for a student to complete the requirements by the beginning of the second semester as well as at its conclusion.

The degree is conferred magnà cum laude on all who complete the requirements with a grade of Group I; cum laude on all in group 2.

A payment of seventy-five dollars must be made at opening of each semester. The remainder of the bill is payable upon presentation unless an arrangement has been made for installment payments. No student will be permitted to attend classes or engage in any University activity if agreed remittance is not received within a reasonable length of time from the agreed date of payment.

Registration must be completed within three days from the opening of each Semester, otherwise a late registration fee of $3.00 will be charged.

Students remaining at the University during the Christmas recess will be charged at the rate of 75c a day for the vacation period.

No rebate of fees will be given to any student whose connection with the University is severed for reasons of discipline. No deductions in board will be made for absences of less than one week, and then only upon written notification to the Business Office. No claim may be made for time preceding such notification.

All remittances should be made payable to “The Lincoln University” and sent to the Business Manager. Postal money orders should be made payable at the Oxford, Pa., Post Office.

The University reserves the right to change the charges if necessary to meet the actual cost.
No student will be recommended to the Trustees for the degree until the charges agreed upon have been met, and his library card cleared.

All students board in the University Dining Hall which is under the care of an experienced dietitian.

The College has three buildings used as dormitories, accommodating about three hundred students. Each room is provided with the essential articles of furniture, such as desk, chairs, table, bed, mattress and pillows. Each student must bring with him three pillow cases, four sheets for single beds, sufficient blankets and towels, all marked with the full name of the student. The buildings are heated from the central heating plant, are lighted by electricity, and have ample bath and toilet conveniences. Necessary repairs are made by the University, but all additional work is at the expense of those who occupy the rooms.

No changes in the electrical wiring of dormitory rooms may be made, and no additions to the electrical fixtures (such as electric irons, larger bulbs, etc.) may be installed or used except by permission of the Superintendent. Request for such permission must be made in writing, and if the permission is granted, the necessary electrical work must be done by an electrician designated by the University. Violation of this regulation will result in the confiscation of all such added fixtures.

The operation of radios in dormitory rooms is limited to those who obtain a permit from the Business Manager, and who agree to conform to the regulations governing their use.

Dormitory rooms must not be redecorated nor may any structural changes be made therein except by permission of the Superintendent.

All students who desire to reserve rooms for the succeeding University term must make a deposit of $15.00.

Incoming students desiring rooms may secure reservations by sending the $15.00 advance deposit to the Business Manager. All rooms are assigned subject to the regulations of the University as to student residences, and occupants are liable for any damage to the dormitory and its furnishings.

Officials of the University or their duly designated representatives have the right to inspect at any time any of the rooms occupied by students.

For the convenience and protection of students while in residence at the University the University Office maintains a student deposit account, where money for personal or incidental expenses may be deposited to be drawn upon as occasion requires. There is no charge for this service and every student is urged to avail himself of it in order to insure the safety of his funds.
§ 7. SELF-HELP AND SCHOLARSHIP AID

The Lincoln University does not undertake to guarantee employment to students, and does not encourage any to enter who are without adequate resources. The aim is to furnish a higher education at a minimum expense to all worthy students. There is a limited number of opportunities for students to assist themselves doing such work as waiting on the table in the University dining hall, assisting in the Library, and acting as janitors in the halls and dormitories or on the grounds. Further information concerning such employment may be had upon application to the Business Manager.

The College department has a scholarship fund of limited amount, the income from which is expended exclusively in partial payment of the tuition of needy and deserving students of good deportment and diligent application. It is not expected that those whose circumstances admit the full payment of bills will apply for assistance. The University desires to encourage those who are obliged to secure an education largely through their own efforts, and is ready at any time to co-operate with worthy men who are willing to do their part in industry, self-sacrifice, and frugality. All correspondence concerning scholarship aid should be directed to the Dean of the University.

Three scholarships in the College may be awarded annually by each member of the State Senate of Pennsylvania. These scholarships pay the annual tuition charge of $120, but do not provide for board and other expenses. All recipients of these scholarships must be residents of Pennsylvania and must have completed a minimum of fifteen acceptable units in an accredited senior high school, and must maintain in the College a satisfactory standard of conduct and scholarship.

Scholarships may be forfeited at any time during the course through negligence or misconduct. If a student fails in any semester to achieve a grade of general Group 3, any scholarship allowance for that semester is thereby forfeited, unless the Committee on Scholarship Aid shall order otherwise.

In those cases where a student is assigned work to help defray his expenses, his earnings are credited to his account monthly upon satisfactory completion of his assigned task. Work credit has no cash or refund value if not applied toward school expenses.

§ 8. PRIZES

The following prizes are offered annually for proficiency in the work of the departments indicated:

**English and Public Speaking**

THE THOMAS W. CONWAY AWARD IN ENGLISH given by Mrs. May C. Sutch in memory of her father, the Reverend Thomas W. Conway, who as State Superintendent of Education in Louisiana (1872) founded the first public schools for the education of Negro youth, awards a prize to that student in each graduating class who achieves excellence in English and best "exemplifies the Christian qualities of honor, gentleness, courtesy, and unselfishness."

THE CLASS OF 1900 PRIZE awards ten dollars to that student who in the judgment of the Faculty has acquitted himself most creditably in the intercollegiate debates.

THE FRESHMAN-SOPHOMORE DEBATE PRIZE awards a silver cup, donated by Daniel G. Hill of the class of 1917 and the Baltimore alumni, to the winner of an annual debate between representatives of the Freshman and Sophomore classes.

THE KAPPA ALPHA PSI PRIZES IN ORATORY, given by Epsilon, the local chapter, award annually a silver loving cup to the best speaker, and a gold medal to the next best, in a Freshman oratorical contest.

The Delta Zeta Chi Debating Society awards each year keys to those who have proved themselves excellent debaters in the intercollegiate contests.

THE CHARLES GARNETT LEE MEMORIAL PRIZE IN ENGLISH, given by his mother and his brother in memory of Charles Garnett Lee of Baltimore, Maryland. This prize, fifteen dollars, is awarded annually to that member of the graduating class, who, in addition to maintaining a satisfactory record in his general scholarship, has achieved excellence in the English Studies or in Creative Writing.

THE NEW YORK ALUMNI AWARD IN DRAMATICS, contributed annually by the Lincoln University Alumni of New York City, is given to the two students who have done meritorious work in drama and the allied arts. The award amounts to twenty-five dollars and is divided as follows: first prize, fifteen dollars; second, ten dollars.

THE JAMES WELDON JOHNSON AWARD FOR CREATIVE WRITING, offered by Mu Chapter of the Phi Beta Sigma Fraternity to that member of the Freshman class who shall submit the best piece of original writing in any of the recognized fields of literature. A second prize will be awarded if the quality of work justifies it.

Social Science

THE ROBERT FLEMING LABAREE MEMORIAL PRIZE IN SOCIAL SCIENCE awards annually twenty-five dollars to a student of social science, in the upper two classes, who is taking one or more courses in that department during the current year. The prize is awarded on the basis of a scholarship, not lower than general Group 2 for the year, and by the best dissertation of not more than three thousand words on an assigned theme.
Natural Science

The Bradley Prize of a gold medal is awarded to that member of the Senior class who has maintained the highest average standing in selected branches of physical science.

The S. Leroy Morris Memorial Prize in Biology, endowed in 1937 by Mrs. Amaza Morris Lockett, Atlantic City, N. J., in memory of her father, S. Leroy Morris, M.D., of the class of 1892, awards ten dollars to that member of the Senior class who has maintained the highest average standing in the courses in Biology.

Music

The Edward S. Silvera and Richard Hurst Hill Memorial Prize. An award of ten dollars and a certificate are given by the Class of 1928 to the student who in addition to maintaining a good scholarship record has done most for the development of music on the campus.

Scholarship Standing

The S. Leroy Morris Memorial Prize, given by NU Chapter of the Alpha Phi Alpha Fraternity, of which he was a member, awards a gold medal to the Freshman making the highest scholastic average.

The Class of 1915 Prize, given by the members of that class, awards the interest on one hundred dollars, on the recommendation of the Faculty Committee on Athletics, to that student of the graduating class of the odd years, who has best combined athletic distinction and scholarship standing.

The Class of 1916 Prize, given by the members of that class, awards the interest of one hundred and twenty-five dollars, on the recommendation of the Faculty Committee on Athletics, to that student of the graduating class of the even years, who has best combined athletic distinction and scholarship standing.

The Alfred Walter Walker Memorial Prize, given by Beta, the local chapter of the Omega Psi Phi Fraternity, in memory of Alfred Walter Walker, A.B., of the class of 1934, a member of Omega Psi Phi, winner of the Kappa Alpha Psi prize in oratory, the W. C. T. U. essay prize, the Junior Orator Medal, valedictorian of his class, founder of the Kappa Epsilon Fraternity, and after graduation part-time instructor in mathematics and Greek, awards a gold medal to the Junior making the highest scholastic average.

General Prizes

The William H. Madeilla Prize, endowed by Miss F. Louise Madeilla, Washington, D. C., in memory of her father, William H. Madeilla, M.D., of the Class of 1876, the income from $400 to the graduating student that has made the most general progress and has

67.
demonstrated high character, conduct and scholarship during his career at the Lincoln University.

THE SAMUEL ROBINSON SCHOLARSHIPS. The income from a gift of Mr. Samuel Robinson is paid out annually as scholarships in sums from $50 to $100, or more, to needy and worthy students who have memorized and recited correctly from memory the answers to the 107 questions in the Westminster Shorter Catechism.

§ 9. GENERAL REGULATIONS CONCERNING CONDUCT

The student Council, organized March 28, 1916, is a Committee elected by the student body. It co-operates with the University Committee on Student Personnel in the handling of all matters except those which are purely academic or which affect those living arrangements of the student body which are under the control of the administration or the Faculty.

All students are required to conform to the following regulations:

I. GENERAL CONDUCT

1. The use, possession or transportation of intoxicating liquors on the grounds or in the buildings of the University is prohibited.

2. As a safeguard against the hazard of fire, and in the interest of sanitary living conditions, all smoking within buildings is to be confined to the dormitories. This means that smoking is prohibited in the classrooms and the hallways of University Hall, the Science Hall, the Library, the Chapel, the Gymnasium, the Little Theatre, and the Music Studio.

3. The use or possession of firearms on University property is prohibited.

4. "Hazing"—The term as here used may be defined as follows: "To subject to cruel horseplay—To harass or punish by the imposition of excessively heavy or disagreeable tasks—To frighten, scold, beat, or to annoy by playing abusive tricks upon an individual."

Hazing is a detriment to the welfare of students; especially does it handicap new students in making satisfactory adjustments to the life of the College; it is therefore prohibited.

II. VISITORS

5. All objectionable persons are denied access to the dormitories at all times. The University authorities will see that this regulation is enforced. Individual students will be held responsible for the conduct of all visitors they may have in the dormitories.

If male visitors remain overnight, they must be reported beforehand or the following morning at the Office of the Dean of Men.
6. No women are admitted to the dormitories at any time without permission from the Office of the Dean of Men. If for any reason the Dean of Men is not available, this permission may be obtained at the Matron’s Office, or at the Administration offices.

Women are not allowed in student rooms after six o’clock p.m. On special occasions when one or more dormitories are definitely thrown open for their use, there will be regulations governing the individual occasion.

As a means of guaranteeing satisfactory housing and recreational facilities, all social events must be planned in collaboration with the Dean of Men and the Matron.

Usually throughout the year, it is possible to secure accommodations for a limited number of overnight guests in the Hostess House. Arrangements should be made with the Matron, in advance.

The University reserves the right (under the By-laws of Lincoln University, ch. vi., Sect. 12, adopted by the Board of Trustees, June 1, 1909) to exclude at any time students whose conduct or academic standing it regards as undesirable, even though no charges be brought against them; in such cases the fees due or already paid to the University will be neither refunded nor remitted in whole or in part.

In case of emergency the University assumes the right to take all responsibility.

University regulations are brought to the attention of every student by posting, announcement, or inclusion in the catalogue. Violation of regulations will not be excused on the plea of ignorance of information.

§ 10. MISCELLANEOUS INFORMATION

The conservation of health and the maintenance of sanitary conditions in the University are under the direct charge of the University Physician. His office is located on the campus and he is available at any time by those in need of his services. There is also an infirmary on the campus, in charge of the Matron, where those suffering from minor ailments may be given special care. Cases requiring hospitalization are cared for either in the West Grove Hospital, six miles away, or in the University of Pennsylvania Hospital, Philadelphia, Pa.

The medical fee paid by every student covers only ordinary medical attention and simple prescriptions. Protracted health service and all hospital charges entail additional expense and are borne by the student.

At matriculation each year every student is required to submit to a physical health examination, and to undergo treatment for any defective conditions thus discovered.
The Physical Director and his assistants promote the physical welfare of the students by directing gymnastic drills and intramural sports. The campus provides ample space for football, baseball, track and tennis. As far as possible the work is conducted in the open air. The gymnasium building provides space for basketball, handball, and physical training when outdoor work is not possible.

In the gymnasium there has been installed a machine for moving pictures and voice reproduction. Once a week there is a showing of the latest films.

The following intercollegiate fraternities have branches in Lincoln University: Alpha Phi Alpha, founded at Cornell University in 1906; Kappa Alpha Psi, founded at Indiana University in 1911; Omega Psi Phi, founded at Howard University in 1911; and Phi Beta Sigma, founded at Howard University in 1914.

The John Miller Dickey Service Society is composed of college students who plan to enter the ministry. It meets twice a month for the discussion of religious and social topics.

The Philosophical Club meets monthly for the discussion of philosophical topics.

The Delta Rho Forensic Society is organized to promote the art of debate, oratory and all forms of public speaking. The intercollegiate debates are controlled by this society.

The Varsity Club, composed of students who have won their "L" in any form of sport, fosters the morale that leads to sportsmanlike conduct on and off the athletic field.

The Lincoln University Chapter of the National Association for the Advancement of Colored People carries out in the University and the neighborhood the aims of this organization.

The Intramural Athletic Association endeavors to get every student into some form of athletic sport. It fosters class competition in football, basketball, track, baseball, tennis, boxing and wrestling.

The Beta Kappa Chi Scientific Society, composed of all upper class men who have made a high standing in biological and physical science, meets twice a month for the discussion of current scientific topics.

The Phi Lambda Sigma Literary Society, an honorary society, elects its members twice a year from those students who have completed at least fifteen semester hours in English with a rating of 1.80 or better.

The Lincoln University Musical Club, organized in 1925, is composed of Glee Club, Quartette, Orchestra, and String Ensemble. Membership is open to all who have the necessary training and interest. The aim of the club is to increase the appreciation of music and to develop musical talent among the student body.

The Lincoln University Players is an organization, membership in which is open to all who are interested in actual performance in the field of dramatics.
III

THE THEOLOGICAL SEMINARY

§ 1. HISTORY OF THE SEMINARY

The entire work of The Lincoln University had its origin in the belief of the Rev. John Miller Dickey that the Negro people, here and in Africa, must be supplied with well-educated, thoroughly trained Christian leaders. With this aim in view Ashmun Institute was chartered in 1854 to give "academical and theological education to young men of the Negro race," and opened for instruction December 31, 1856.

Ashmun Institute continued its work for nine years, during which theology was taught together with academic studies, and thirty men were trained, twelve of whom were ordained to the ministry. Of these twelve, five became missionaries in Africa.

Ashmun Institute, organized before the Civil War, was planned for free Negroes only, since the slaves were inaccessible to educational effort. But with their emancipation it was recognized that the need for Christian leaders was all the greater, and therefore in 1866 The Lincoln University was organized, and in 1867 the Theological Department began with a provisional course of two years, which in a short time was extended to cover the usual three years of theological studies. In 1871 the General Assembly of the Presbyterian Church in the United States of America adopted the following action (Minutes for 1871, p. 581): “RESOLVED, That the General Assembly accept the oversight of the Theological Department of The Lincoln University, as provided in the amended charter of that Institution.”

§ 2. THE COURSES OF INSTRUCTION

The courses are distributed into the following groups:

I. Old Testament (in the original)
II. New Testament (in the original)
III. Church History and Missions.
IV. Apologetics
V. Systematic Theology
VI. Homiletics and Practical Theology

Courses designated by a single numeral are semester courses (odd numerals are employed for courses given in the first semester, and even numerals for courses given in the second semester). Year courses are designated by an odd numeral and even numeral joined
by a hyphen, and the work of the two semesters constitutes an in-

tegral, indivisible course.

A course identical with Religion 12, page 52.

7-8. Church Music: Mr. Dorsey.  
(Given each year) Credit: Four hours

This course (identical with Music and Fine Art 11-12) is to meet the needs of church leaders. Half of each period is devoted to the sight singing of hymns, and half to lectures and discussions of the great hymns, hymn writers and the history of hymnody in the Christian Church.

§ 3. THE PROGRAM OF STUDY

The program of study is designed to meet the educational requirements for the ministerial office as laid down by the Presbyterian Church in the U.S.A. These, in brief, demand the possession of a bachelor's degree from an accredited college or university, and a minimum of two years of study in a recognized theological school. The Theological Department of The Lincoln University, recognized by the General Assembly of the Presbyterian Church in the U.S.A. as one of its standard seminaries, gives a three years' course in the Bible, theology, church history, New Testament Greek, Hebrew, Old and New Testament exegesis, practical theology such as preaching, pastoral work, church management and religious education.
Students who hold the degree of bachelor of arts or its equivalent from an accredited institution receive the degree of bachelor of sacred theology (S.T.B.) upon completion of the full theological course.

The studies of the course are arranged in logical sequence, and are distributed through three years in such manner that thirty semester hours should be taken each year. A minimum of ninety semester hours is required for the degree.

Many courses in the College department of the University are open to Seminary students, and may be profitably pursued by qualified men. All such optional work, however, must be approved by the Dean of the Seminary and the Dean of the College.

No student will be advanced into the middle or second year class who has not completed at least 26 semester hours; and no student will be counted a member of the Senior or third year class who has not completed at least 56 semester hours.

§ 4. Admission

In order to be admitted to matriculation and enrollment as a student in the Seminary, the applicant for admission must present to the Dean of the Seminary the following credentials:

1. A letter from the pastor or session of the Church of which he is a member, stating that he is in full communion with the Church, is of good conduct and high character, and that he possesses aptitude for theological study. Or, if an ordained minister, a letter from the church body to which he belongs, stating that he is in good and regular standing.

2. A college diploma, or a certificate of the completion of a regular course of academic study.

Blank forms upon which to make application for admission will be furnished on request by the Dean of the Seminary.

A student who has taken part of the theological course in another seminary will be received to the same stage of the course on his presentation of a letter from that seminary certifying to his good standing, stating the courses he has completed, and regularly dismissing him to this Seminary. He must also comply with the terms of admission set forth in the preceding paragraphs.

A student who has completed the regular course of study in another seminary may be admitted provided he present a certificate to that effect from that seminary. No graduate of any theological seminary, however, shall be eligible to scholarship aid.

An ordained minister, who has not completed the regular courses of study in a theological seminary, may be admitted to the privileges of the Seminary upon presentation of credentials from an authorized ecclesiastical body attesting that he is in good and regular ministerial standing. The hospitality of the Seminary may also be extended to accredited persons who may desire to pursue special studies.
§ 5. SEMINARY CHARGES, SCHOLARSHIP AID AND PRIZES

The Seminary Charges are as follows:

<table>
<thead>
<tr>
<th>Service</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition, per year</td>
<td>$60.00</td>
</tr>
<tr>
<td>Room, Heat and Light</td>
<td>50.00</td>
</tr>
<tr>
<td>Board</td>
<td>150.00</td>
</tr>
<tr>
<td>Fees</td>
<td>20.00</td>
</tr>
</tbody>
</table>

All students regularly enrolled in the Seminary will be given $200.00 of scholarship aid.

Students having the bachelor's degree from a recognized College, who maintain a creditable standing, and who do not receive aid from other sources may be granted $80.00 of additional aid, provided they are assigned to tutoring or instruction through the office of the Dean.

All expenses for text-books, laundry, travelling and personal needs must be met by the student.

The Miss Lafie Reed Prize in Sacred Geography, consisting of ten dollars, is given to that member of the Junior Class who maintained the best standing in the course of Sacred Geography and passed the best examination. A second prize of five dollars is also given in the same subject.

The R. H. Nassau Prize, consisting of the income from $1,000, is given to that member of the Senior class whom the Faculty shall select as best exemplifying the ideal of the Theological Department of Lincoln University in scholarship and personality. The student selected shall present an essay of not less than 500 words based on the life and work of the donor, the Rev. Robert Hamill Nassau, M.D., S.T.D., of the West Africa Mission.

§ 6. MISCELLANEOUS INFORMATION

The Seminary year is the same as the University year already explained. Examinations are held at the close of each semester, and the system of grading is the same as in the College. Reports of each semester's work are sent to each student by the Dean of the Seminary, and will also be sent to Presbyteries and other properly constituted church authorities when desired.

The Seminary student enjoys all the religious privileges of the University. Voluntary devotional exercises and mission study foster spiritual impulses, and community and church service afford a practical outlet to the religious life.

The Theological Lyceum, of which all theological students are members, holds weekly meetings.
