Note: Mifflin, Carson & Davidson of the Committee met pursuant to adjournment, to adopt measures relative to collecting funds. Action upon the subject was deferred as no few of the Committee were present.
Thursday evening July 17, 1834

The Committee met at Dr. Bell's Office.
President Major Bell, Cresap & Davidson.

The subject referred to the Committee by the Board at
their last meeting having been called up, the following
Report & resolution presented by Dr. Bell was mani-
monstrously adopted.

Report of the Executive Committee, to whom was referred by
the Board of Managers, the subject of the Kind of
auxiliary connection & relations which the Young
Men's Colonization Society of Pennsylvania, should
maintain with the American Colonization Society of
Washington, and the conditions on which the former
agreed to receive from the latter the uncommitted Slaves
of the Rev. Dr. Harris of Virginia, with a view to
their being located in a new settlement on the Coast
of Africa.

That the Owners and admitted advantages of position of
the Parent Board at Washington of the Composi-
tion of the American Colonization Society, of which it
is the Executive branch, forbid the idea of independent
action by Societies formed on the model of this one.
The Young Men's Colonization Society of Pennsylvania
distinctly admits in its Constitution its auxiliary,
character. And it is content with affirming a
merely nominal connection of this kind with the
Parent Board. It has carefully abstained from
extending its Sphere of action beyond the State of
Pennsylvania; & within these limits it proposed to
make the Services of its labors not merely subservient
to the general objects of Colonization in Africa, but to
the ends of them in such a manner as shall meet
with the approbation of the Parent Board.

The latter by its location at the seat of government,
is enabled to unite in the great Cause of Colonization. The North and the South, to pursue joint action between the minds of Country and its inhabitants, which could not be done by a Society in any other section of the Union. It is moreover requisite that there should be a Central Society in bond to retain a general superintendence over all the settlements on the Coast of Africa, the letter to preserve among them the necessary genuine intercourse & other relations. This Board is also the best fitted to keep the whole United States apprised of the progress of events of the whole of the African Colonies, and thus to enable the former to transact with Knowledge of the circumstances, the pecuniary and other assistance which they may propose from time to time to furnish to the latter.

It must on the other hand be conceded that an auxiliary, such as that of the Young Men's Colonization Society of Pennsylvania, enjoyed means & facilities for furthering the same ends inferior in some respects to those possessed by the Parent Board. Among these may be mentioned the existence of a direct appeal to a large & wealthy population for contribution, & also an official which would be perhaps equally respected as is made by any Society whatever at a distance. Next in the list of pecuniary advantages is the location of the Young Men's Society in a Commercial City, by which quicker remittances & dispatch in the transportation of Emigrants & in the outfitting of them to the Colony in general are insured. It is also an encouraging circumstance that some of the Members are themselves men of business, practically conversant with the marketable value of goods, almost as for the Colony.

In view of these advantages, it can hardly
be expected that the auxiliary operations of the Army Prison Society of Pennsylvania should be restricted to a more collective distribution of funds than directed for the Parent Society, without at the same time, a direct participation in Council, legislative, or executive action with the latter. Not as the exercise of the right, could only be judicious, efficient after a full knowledge of all the circumstances connected with the auxiliary of the Colonies, the resources of the Parent Society, and all the information requisite for a due understanding of the subject; nor hardly be in the profession of an auxiliary Society, the latter must either refrain from all joint Councils or legislation with the Parent Society or take a particular line of action leading to a specific end. This has been already done by some of the State Auxiliaries, with the assent of the Society at Washington; and it is now proposed to be carried on by the Society and its Board of Managers in Pennsylvania.

The Scheme to the accomplishment of which these energies of this Society are now to be directed is the founding of a new settlement on the coast of Africa, under the auspices of the Parent Society; and yet both such modifications and reforms as would render it difficult for the latter to assume at once the entire responsibility without an admission of continued living law to other Colonies & the settlements now in existence. Just as far as these modifications and reforms extend, would it be necessary to have different or amended local laws and regulations, if not a different executive agency. As to this, it is proposed in the new colony that more attention and encouragement shall be given to agriculture, for example, had a law of Accidental Sicks prohibited, and an
Impressed plan adopted 1st inst. of supplying
the public wants in the issue by gift or sale of
their contents to the Colonists & Native inhabitants.
Not yet the Parent Bond is entitled to any of
their share of surplus & increased reputation, to the cause
of colonization even in maintained not
of its own suggestion & origination, its council & guidance
are invested in the present enterprise by the Young
Men's Society of Pennsylvania. The Ancestral
here invites the sanction of the principal to the meas-
ures now in progress by the latter, for the selection
& purchase of land for a New Colony, the appointment
of a home agent & governor & the execution of such
laws as experience shall indicate, in addition to or
in modification of those already in force in Liberia.

Until the sanction by formal consent be given to these
steps, as well as those which may be afterwards taken
for the attainment of the great objects in view
Colonizing & Christianizing Africa, the Young Men's
Society will feel itself deprived of all countenance
& support which it looks with continued hope &
expectation. It is proposed, moreover, the better to induce
joint action & to reduce to the Parent Bond the
right of general superintendence, that a Special agent
should from time to time be dispatched from Liberia
to visit the New Colony & be instructed to give his aid
and Council towards maintaining a right understand-
ing between it & the other Colonies on the coast.

With these explanations, made in a spirit of perfect
good will & fellowship, of their understanding of the
ancient connexion and relations which the Young
Men's Colonization Society of Pennsylvania have with
the Parent Bond at Washington, the Executive
Committee submit the following resolution:
Resolved That the Board of Managers of the U. S. Marine Society of Penn. — agree to the terms proposed in the Second Resolution of the Parent Board, recently received, respecting the transmission by the latter to the former, by principal to auxiliary, of the manumitted Slaves of the lateCodec. Wanee of Virginia; and that they will proceed forthwith to complete the necessary arrangements for a new colony at a new of Rappahannock, the first settlers of which are to be the said liberator Slaves.

The Committee recommended to the Board the appointment of Capt. Able the Collector of the Missouri Indenture at Public Meeting.

The report of the Verandah Committee, Register of Chippards, and Division, were presented to the Board. The minutes of the Ex. Comm. went into the hands of the New Recording Secretary of the Board, bore by him, under date, and from the hands of the Secretary of the Game, displayed to the Board. A space has been left for the minutes of that evening in which it was intended to include a memorandum of the division of a reference in the proceedings, which from their length it was thought unnecessary to copy. The Division having by a direction of the Committee been completed into their 13th list, all the information was relative to that expedition, either on record or on file, and the proceedings of the Comm. were not to complete, as he feared, the report for further compilation. All which is respectfully submitted.

In relation to the letter from the C.A. of 16th June, which was read before the Board at the last meeting, Mr. Gresson explained, that it was a printed communication which he had answered, and only in a line advances without from the circumstances of the case, not in pursuance of the request to the Board contained in that letter, which, as he thought, the Board had not made a subsequent part to the C.A., had occasion to act upon.

The letter of 15th June, as to the Board, the Board was under an express reservation for definite action on the next meeting.

Letters from Mr. McIvor and Mr. W. lastly read. The minutes of the 16th, and 20th May were read by the Secretary. That of the Staverton Committee contained much important information in relation to the
Situation and wants of the Colonists, from which it appears, "The greater part of the emigrants are alone in China." They are generally contented, but yet putting up their houses. Letters have been from the same from other traders, few, of whom they are adults, the remaining 11 are children under 9 years of age. At the landing, has been confirmed to reduce nearly eighty of the cases of smallpox in consequence of which the orders of the Colony have been issued for the purpose of providing for such emigrants. Very shortly, only 3 or 5 of any of this. The provisions are short, and the "emigrants get nothing but salt flesh and necessities."

On Motion it was then

The Secretary read a letter from Mr. Sew, informing the Ex. Com., that the Board of Managers of the Parent Society had passed the following Resolution on the subject of Mr. Percival relation, with that letter:

"Resolved, that the Young Men's Society of Pa., be informed, that Dr. Percival, private was appointed Assistant Physician of this Society in the Colony of Eden, on the 15th of May, 1831, at a salary of Seven hundred dollars per annum, that the Society paid the expenses of his journey to Washington, advanced to him $229.25 on account of his salary, paid his passage to the Colony, and have made him some advances from the Colony stores (for particulars not at present in their possession), that on application of Elbert Creighton on in January last, the Society considered that Dr. Percival should reside at Eden and come alternately, where circumstances shown he could not be able to perform medical services at both places: and it appears to this Board reasonable that whilst the 25 continues to reside in the manner, his salary should be paid one-half by this Society and the other half by the young Members; however, this Society cannot agree to support with Dr. Percival's services, but are willing that he should continue to afford upon one-half of his time as above stated.

The Secretary then read a letter from Mr. Sew, to the Board, stating that the Col. people left few by the late Dr. Blackstone and above belonging to the lands of strictly Indians.
of Nashville could not be sent on in time for the present expedition; that is not before the 1st of Dec. or 1st of December.

The letter also contains a request that four looms, the same number of spinning wheels, with their appropriate apparatus, should be purchased and sent to Monomoy on account of the Perrot family. On motion it was

Col. Office Jan 14th 1836

Col. Friend

On my return to the city after nearly a fortnight's absence, I found a letter without postmark, date or place, from them I have been to day received from other renewals of the act of 1801, which has been laid before the legislature.

On the present state of our funds & prospects here the latest and most useful one at our disposal, that of obtaining relief, we have been in the favourable report of the feeling which existed at a body by the formation of an immense subscription & under the prospect of future collections being averted, yet we would respectfully suggest the inactivity of present applications to the leading individuals of the respective congregations before the effect has had time to work off & subside. Such men generally feel the mark of distinction in such a place as Boston, the centre of business, and is but so much calculated to oblige even timid impressions. In my memorandum I think I include the name of Roger B@s... in the present state of the river, and some time since estimated to be a point of division of beginning a career to the last place, where a small part of the time would be a welcome relief to gentlemen with whom I have conversed, a member of a citizen. Boston is who was in a very pleasant mood towards me after my return, wishing a much longer talk than the few visits allowed to. The next seems it desirable to the time home to meet with one of the best of examining our friends in the principal towns. Probably letters addressed positively to the friends of the foe in these places, facing the time of the proposed meetings.
would be wise. At Madison City is prospect of the chambers for the sale of wheat, where the 1st of November, the Presbyterian Church is in warm favor of the society. In Lancaster, H. G. Finley, Esq., a well-known advocate of the cause, has been recently elected to the Board, but being ill, might possibly be excused from this charge. The adjourned resolution was passed by the Board.

"I beg that the Committee, after leaving Pittsburg, be requested to visit such towns on his return as he may think desirable, and that he be particularly requested to spend some days in Harrisburg, in order to address the members of the legislature collectively, and converse with them individually on the same subject."

Among the citizens of Pittsburg the issue was warmly favored. A gentleman of the house, a member of the Board of Trade, with the request for retirement, hence any grant to us will be an improbable event this season, and that they are convinced that the cobbler will result in their favor, by improving the channel for the farmer, the manufacturer, the merchant, to find a profitable market. I conclude a letter just as for them, I am very respectful.

The following note was read from Mr. Bollwher, Col. Dwight,
the Col. from Col. Curtiss. My Dear Sir,
I have received your notice for our meeting to-night and
regret that my regular duties will prevent my being with you.
I regret it the more, because I am persuaded that the
most prompt and regular means should be adopted for the
raising of funds. We should be at least raising as much
money as we have agreed to pay to our salaried officers.
I am persuaded that the present season of the year is the
most favourable of all for the collection of funds.

Geo. W. Bollwher.

Dr. Bell offered the following resolutions which were adopted:

Resolved unanimously, that
Whereas the events of the Col. Society are at this time attended
with the present season is one generally admitted to be the most
favourable for procuring the desired object,
Resolved that the Conn. deem it to be expedient & highly
necessary to take immediate steps for early & continued efforts
to obtain pecuniary assistance from the citizens of Philadelphia.

Resolved that the Agent in care of the necessities of the case
take such means of action as he recommends as far as in
the power to carry out the intention of the above resolution by
daily and incessant efforts.

Tuesday Feb. 16, 1836

Present Mrps. Creap, Davidson & Johnson; the sub-committee appointed Oct. 3d, for procuring a ship & supplies, made the following Report:

That in accordance with the instructions of the Executive Committee they took immediate steps to obtain on the most advantageous terms a vessel to sail from Norfolk on the 22d of Oct.

For the mutual advantage of the Society & of the present Board, as well as to economize the funds, both directed, they entered into a conditional agreement for the charter of a fine swift, 400 ton, merchant vessel, in accordance with the understanding that the proposed voyage would not be ready at the appointed time, it would be found necessary to cancel the contract. The painful receipt of the intelligence (on the 4th of Nov.) of the capture of Alaska line, rendering it impracticable to send more emigrants to our own Colony, than those who might be on their way to this port of Norfolk, we determined for the year 1836. Mr. Way, Independent, as of other party accompanying, to take a cargo together with such hawks as we might have to liberate, reducing an occasion which renders most desirable and necessary, Bering Sea or both ports, saving 900 miles and vexatious delays in the port of the owners, the ship not finally sail until the 23d. No. with the shipment our agent, Geo. Williams, alias Whiteah, a native African, who has been at school in this city, with Israel Humphreys, wife & children as washerwomen. Their previous instruction was however the little learning to be required, as seven gates of long continued headwinds prevented the vessel by which our tobacco, molasses & other articles of cargo, together with the boats & munitions for sale
by the Navy Dept were freighted, from arriving until far behind the period first assigned for arriving. Favourable as are the terms on which even now the vessels proceed, they would have been far more so, had not the owners, after the agreement was signed, part of the cargo actually on board refused to proceed until paid. Contrary to the original terms, one half the expenses of landing the cargo & subsequently securing it were of proper clearing, prevented much of the lumber brought from being lost.

Freight clauses were taken to provide every article deemed useful for the comfort & safety of our people, & at the same time to secure the most rapid economy in the disbursements of quantities of the various articles needed; it is gratifying to believe from subsequent fact, that the cargo, amounting with freight, insurance & other charges to £160,965 was bought at the most favourable juncture, on terms which could not in any case have been more advantageous, many of them having been grossly sold at cost, & in some instances given to us.

Nearly the whole amount is yet unpaid, owing to Dept. from the Colony amounting to £20,953 9s 6d having absorbed all our funds: - & many of the goods were at such prices & various acceptances rapidly falling due for the sale; we very respectfully the earnestly suggest the propriety of the Govt. Com. urging upon the board the imperative necessity of taking early & efficient steps for liquidating this heavy amount - more especially as the two meeting held with a view to raise funds in aid of the cause, due so far followed every effect of relieving our Treasury.

S. Omitted in minutes on the above date page 44. The following is a report from Mr. Broughton.

Gentlemen

I arrived at Pittsburg after 62 hours travel in extremely cold weather, on Thursday evening, and was confined to my room with headache till Saturday morning. On that evening Mr. Allegheny I preached three sermons on Colonization in 6 churches. The meeting of the Pittsburg Society met on Monday & Mr. I. thought proper to offer an earlier meeting concluded that the meeting could not be held till Tuesday evening after the 3rd Sabbath. The meeting was regularly -

fully announced for that day but unfortunately when we went to the church the Senior had provided neither fire nor lights & they could not be purchased. I proceeded & it was necessary to delay until the following Monday when we had a fine meeting in evening. In company with Stephen Caldwell Esq., whose zeal in the cause is above all praise, I devoted my time to soliciting subscriptions. We procured eight $100 subscriptions (one of them $100 a year for five years) from five gentlemen recount of town, and of which Mr. Caldwell expected to procure at least two thousand subscriptions. Three $50 subscriptions were signed and a number of smaller promises. The census was completed the day before I left to appoint collectors to district the town for smaller subscriptions about $135 were collected at the public meeting at the Rev. Dr. Brown's Caumondburg gave me $10 but declined opening the college chapel for preaching. Mr. Caldwell paid me $245, deducting $1.75 for a bill on Philadelphia that is to say $243.81, which with Dr. Brown's donation made $253.81, of which sum I have paid $153.50 to your Treasurer. While at Pittsburg, I went to Washington.
I held a meeting there on the evening of July 4th. Lee told me it was impossible to much, collections were except on the 4th. I came to Chambersburg on my return preached in two churches on the Sabbath & held a public meeting on Tuesday July 7th. The Society appointed a Com. to procure as many new members as possible. With great effort I persuaded two gentlemen, Major Madocin & Chambers to subscribe ten dollars each, & they promised, on the 4th. They, to solicit several others to give as much as thought they should succeed, with favor. I went on to Harrisburg after consultation with Mr Harris & some members of the Legislature. I found that excitement in the existing body of the body, rising to majesty & the United States Bank Bill there was no prospect of getting their attention to colonization under these weeks. Therefore, after staying two days & satisfying myself of the fact, returned.

The end of my report on the road was 7th, 12th,

That a more perfect Union of the Friends of African Life in their Council & Measures in this Country, is most desirable. That it is expedient to adopt a General Government for the several Colonies in Liberia.

This Resolution having been withdrawn a Motion was made to lay Mr. Satther's substitute on the table. Which was lost by a tie. The N. York & Penn. Societies both being divided - Washington voting for Maryland against laying on the table.

Mr. Satther's resolution then came up for Consideration when after debate a Motion was made to adjourn to 9 o'clock Wednesday morning - which was lost.

The question then recurring on Mr. Satther's Resolution they were unanimously adopted. The Washington Committee declining to vote on the question on the ground that they were not authorized to adopt any such measures.

Resd. That it is expedient that there should be held a Convention of Delegates from the several Societies having colonies on the Coast of Africa, to consider a general plan for the commercial concerns of the colonies and their mutual intercourse and harmony.

Resd. That a Committee be appointed by the Chair of Members from each Society here represented, which shall be instructed to prepare a general plan for the commercial concerns of the colonies and their mutual intercourse and harmony.

Resd. That such committee be directed to furnish to each of the said Societies a copy of such general plan as they may agree upon. With a day & place named by said committee at which such Society shall be invited to send delegates. At a convention for the purpose of discussing adopting the plan as laid, either as reported or amended by said convention.
The Committee was then appointed as follows:

From N. York: Dr. Pendleton

Pennsylvania: Mr. Buchanan

Maryland: Mr. Latrobe

Washington: Judge Wilkinson & Mr. Surley.

Mr. Latrobe then moved a adjournment in order that the Committee from Maryland might act as they could not participate in the proceedings of the Convention. The motion was lost.

Judge Wilkinson called up the resolution offered by Mr. Surley which had been withdrawn.

Mr. Phelps then moved to adjourn sine die, which was lost. The question then came up on the original resolution which was carried. The Maryland Committee declining to vote on the question.

Mr. Surley then moved to adjourn sine die, lost.

Mr. Buchanan moved to reconsider the resolution of Mr. Surley which was carried.

Mr. Latrobe then moved to adjourn sine die without taking the question again on Mr. Surley's resolution. The Convention adjourned.

The Sr. Con, in conformity with

resolution of the 83d M. of the P.B.S.

hear willing testimony on behalf of this

letter, to the signal services which

E. T. Brown Esq. one of its N. P. has

rendered to the cause of S. Col.

during the last twelve years.

At all times in all

places without salary or any remunerating

compensation has ably, zealously, successfully

pleaded the cause of the coloured race, has enforced

on public attention the best means of ameliorating

its present condition. He has ministered in

different regions of the U.S. States, in the

North & in the East, in the South & in the West, advocated Colonization and

its attendant benefits of liberty equal

law & Christian instruction as the means

best calculated for permanently elevating
The utmost to depressed fortunes of this Race

Six years ago Mr. Benson took a leading and active part, first in the original suggestion and afterward in devising and carrying out the measures for founding a new colony in Liberia at Basa Cove under the auspices of the Young Men's Col. Soc. of Rome, and the N.Y. City Colonization Society. He was also foremost in giving pecuniary aid for the restoration of the new settlements which had for a season suffered under adverse circumstances.

The union of the Young Men's Society with the Terra Nova, in each of which he was a Manager, was followed by the same devotion to the Cause as before. Nor has he restricted himself within arbitrary sectional limits. The has given his services for a thousand periods, both in the United States and in the Slave Holding States to the A. Col. Society and in both those portions of the U.S. He has manifested his usual activity in increasing its funds and in extending its influence. Already through the exertions of Mr. Benson during a visit home a few years ago in Great Britain, has the stream of benevolence from some of the friends of Africa in that country been directed toward Liberia, of which the settlement of Reny furnishes pleasing testimony.

The lamented Mr. Benson, without however recommending him to engage in any systematic or tireless efforts in the cause of Colonization...
During hisfuture stay in England, indulge the hope that opportunities compatible with his health's personal comfort will not be wanting for him to unite in opulent action with the friends of the cause in that Country and in the United States. With the view in order, as much as possible to save a trouble of repetition & no trusted explanation, verbal or written of the State's prospects.

Colonization & the statistics of Resources of Liberia. The Col. Com. requested the Col. Agent in place at 1st Berson to dispose a number of copies of the addressing tracts to other publics for the office of the Soc.

To this was appended Res. No. V. suggesting approval in very flattering terms.

On motion of Mr. Colwell it was Resolved that the Buchanan Col. Governor of Liberia be directed to prepare and execute a lease of the grounds appropriated by him for the use of the Ladies Liberia School Association of Phil., in pursuance of a resolution of this Board of the 2d April 1839, for the term of 99 years, with the privilege of renewing the said lease for the like term at the option of said Association differing.
the nominal rent annually of one
Coffee Berry if demanded, the said
lease to be made of the said ground
for the purpose of establishing and
