Suggestions for Faculty Forum

*Please send your suggestions about topics, times and ways of increasing participation in the Faculty Forum to the Ad Hoc Faculty Forums Committee.*

The purpose of the Faculty Forum is to expose faculty and students to critical issues confronting today's society. The Faculty Forum is the result of "feedback" from the Constitution Day forum of September 2005. The Ad Hoc Faculty Forums Committee is charged with organizing regular discussions for and among the University community (of faculty, students, administrators and staff). The first faculty forum was on campus life, and took place on 25th January 2006.

*Please list your suggestions below and submit this form to any of the members of the Ad Hoc Faculty Forums Committee at the 7th March 2006 Faculty Meeting.*
