

Goodbye Daniel Talasnik

Over the winter holiday, Mr. Daniel Talasnik resigned from the position of Coordinator for Math Learning Center (MLC). Mr. Talasnik was a recent addition to our team, hired only last summer. In his short time here, he organized the university's math placement testing for new students in Fall 2023, hired tutors and graders for our math courses, and managed the many lab components of our Elementary and Intermediate Algebra courses (MAT 101).

The Department of Mathematical Sciences bids a very fond farewell to Mr. Talasnik. While his time at Lincoln was brief, his efforts helped students across campus to succeed in their math education.
