Begins March 27<sup>th</sup>

**What is Advising?** Academic advising is a collaborative relationship between a student and an academic advisor. The intent of this collaboration is to assist the student in the development of meaningful educational goals that are consistent with personal interests, values and abilities.

**What is Registration?** At Lincoln University, continuing student registration is the period in which all currently enrolled students should register. This registration period is intended to give preference to all continuing students by matriculation and class level, ensuring that they are able to schedule classes before new students. This date-regulated process ensures fairness to all students and provides them with the best access to our computerized registration system. Register at your earliest opportunity to get the best selection of classes and the most convenient class schedule.
