Campus Climate Survey

Summary Report
Fall 2018

Mission: Lincoln University, the nation's first degree-granting Historically Black College & University (HBCU), educates and empowers students to lead their communities and change the world.

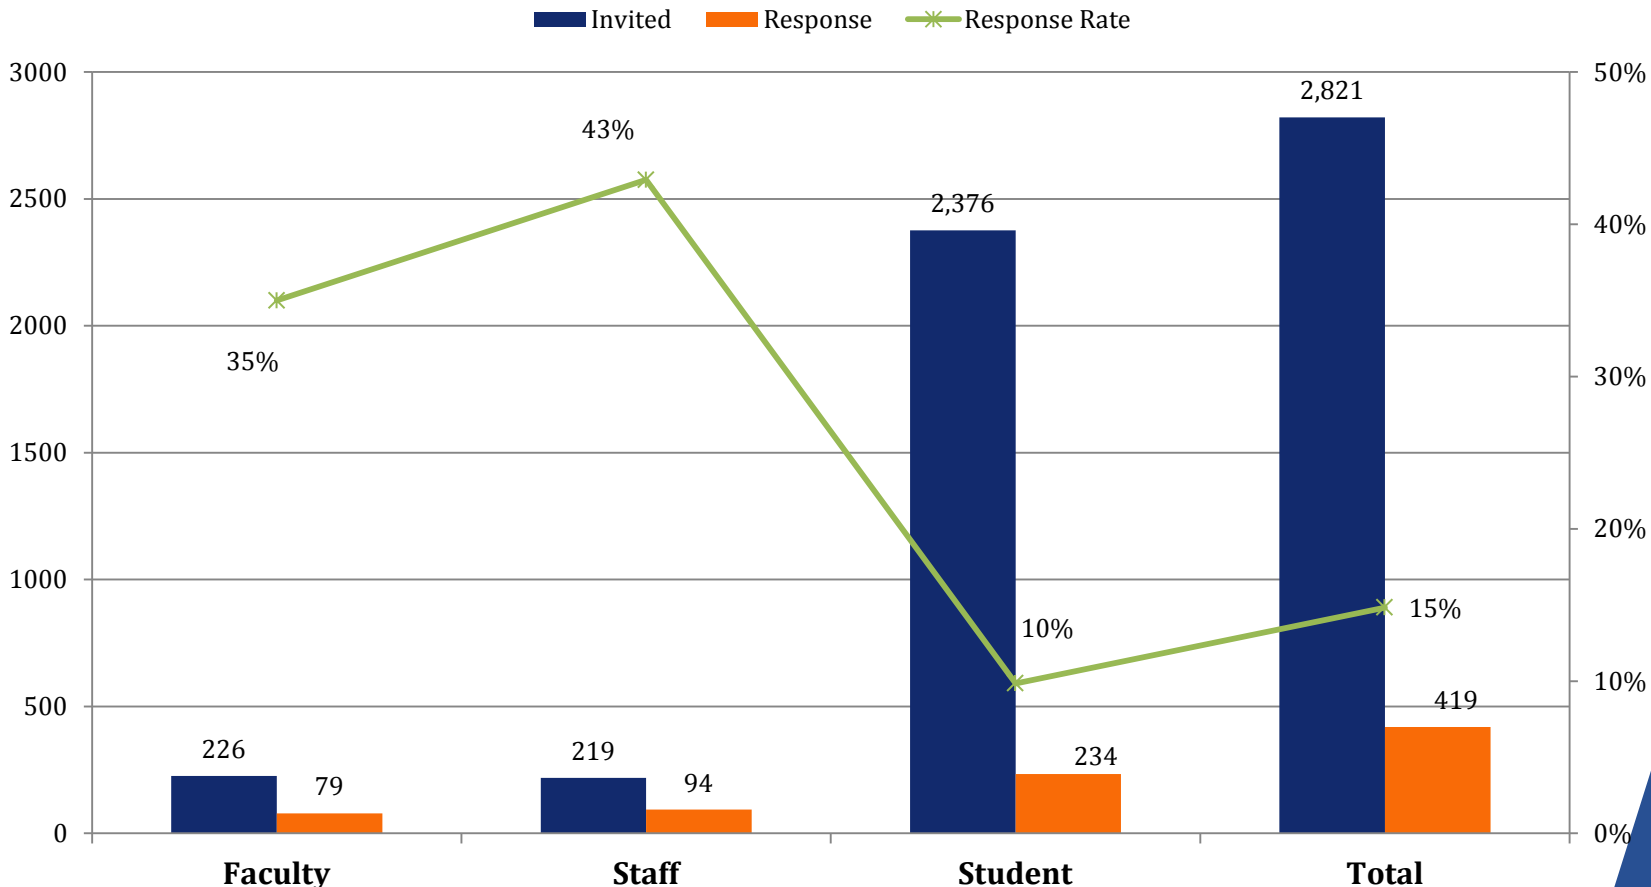

Campus Climate Survey

- Developed by the Office of Institutional Effectiveness, Research, and Planning (OIERP) in collaboration with key administrators and faculty
- Objective: To assess the climate of Lincoln University students, faculty and staff. Studies have shown that inclusive and respectful campus communities improve the learning environment for students and the working environment for faculty and staff
- Target population: Fall 2018 faculty, staff and students
- Administration timeframe: October 11- November 26, 2018
- Survey questions: Align with the strategic themes of the Strategic Plan 2018 and will provide baseline data regarding Lincoln University's campus climate.

Response Rate

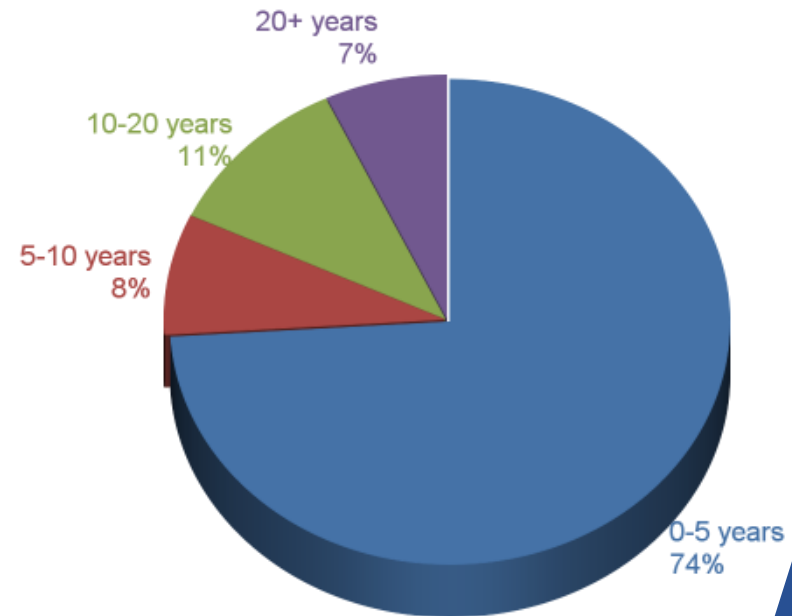

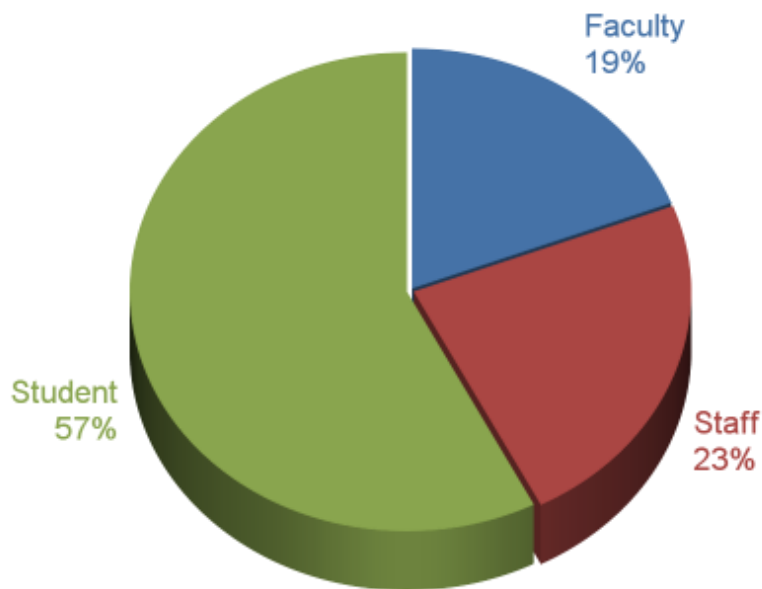

- 2,821 faculty, staff and students invited to participate
- 419 responses received
- 15% overall response rate (corresponds to 95% confidence that responses are within +/- 5 % points of the overall population)
