COLLEGIATE DEPARTMENT.

TERMS OF ADMISSION.

All applicants for admission to the University must present testimonials of good moral character. Those coming from other Colleges must bring certificates of dismission in good standing.

Applicants for admission to the Freshman Class of the Collegiate Department will be examined in Arithmetic, Geography, English Grammar and Latin Grammar.

All Candidates for advanced standing, in addition to the preparatory studies, will be examined in those previously studied by the classes which they propose to enter.

Candidates for admission to any of the classes should make arrangements to be present at the opening of the session, on Thursday the 15th of September next, on Thursday the 5th of January, 1871, or on Thursday the 6th of April, 1871.

No applicant will be admitted to the Freshman Class under fifteen years of age.

All students on admission to the Classes are required to subscribe a pledge of obedience to the laws of the University.

The Bible is used as a text-book in all the classes throughout the course.

All the classes are steadily exercised in Declamation and English Composition.

Pedagogy commenced in the Freshman year is continued through the entire course.

Connected with the Collegiate Department are two Literary Societies, known as the Garnet Literary Association and the Philosopher Society. The stated meetings are held every Friday evening. The exercises consist of Debating, Declamation, and Composition, and the divisions are so arranged that each student performs in one class of exercises every two weeks.

Students over seventeen years of age, intending to prepare themselves for the duties of teaching, may on application receive fifty cents per week towards their expenses during the Sessions of the College, from the State Treasury, upon the terms granted to Students in the Normal Schools of the State of Pennsylvania. Any Student who was disabled in the Military or Naval service of the United States, or of Pennsylvania, or whose father lost his life in said service, and who is over seventeen, and not over twenty-two years of age, may receive one dollar per week upon the same conditions. Regular instruction is given in the science and art of teaching.

The course of study in this Department occupies four years. Those who complete the course satisfactorily, will receive from the Trustees the Degree of Bachelor of Arts. Students graduating from this Department, and intending to teach two years in the State of Pennsylvania, will receive fifty dollars from the State Treasury.

NORMAL AND PREPARATORY DEPARTMENT.

The Trustees are earnestly endeavoring to meet the educational wants of the freedmen, by preparing the largest possible number of competent teachers. They have placed the Normal and Preparatory Department under the care of W. W. Woodruff, a graduate of Oberlin College, and for nine years the Superintendent of public schools in Chester county, Pennsylvania. His large experience, and peculiar fitness for this work, justify the expectation that this department will become one of the most important in the University. The expenses are the same as in the Collegiate Department.

The scheme of studies is arranged to occupy three years, but students will be admitted to any part of the Course, for which they may be qualified by previous training, and advanced as fast as their abilities permit. The studies are the same in each of the departments until the third year. Grammar and composition are not taken up till the second year, nor history, till the third.

Proficiency in the studies of the Normal Department will entitle the student to a teacher's certificate, and enable him to conduct a first class public school in the State of Pennsylvania. Algebra and Pedagogy are peculiar to this department in the third year.

Proficiency in the studies of the Preparatory Department, to be ascertained by a rigorous examination, will be a condition of entrance into the Freshman Class, candidates for which commence Latin and Greek in the third year.

The studies peculiar to the Business Department in the third year are Technology and Book Keeping. The course of Technology is intended to give a knowledge of the common arts and trades, and their various processes.

Instruction in Vocal Music is given through the whole Course.

LAW DEPARTMENT.

Graduates from the Collegiate Department, and from other collegiate institutions, and those also who on examination may be found able to profit by the course of instruction, will be admitted to this department. A class will be formed on the 15th of September, 1870. The students in this department will be registered in the office of a resident practicing lawyer. The following courses of lectures will be delivered during the year :

On the Study of the Law.

HON. JOSEPH J. LEWIS.

On Real Estate and Personal Property.

J. SMITH FUTHEY, ESQ.

On the American Constitutions—State and Federal.

WAYNE McVEAGH, ESQ.

On Commercial Law.

JOSEPH C. TURNER, ESQ.

On Criminal Jurisprudence.

J. SMITH FUTHEY, ESQ.

On Domestic Relations, and Settlement of Estates.

JOHN J. PINKERTON, ESQ.

Resident Attorney and Director of Studies.

I. M. CRESCON DICKEY, ESQ.

The Hon. John Hickman, to whom the University is under obligation for many favors, will render such assistance in this department as his health will permit.

Students admitted to graduation will receive the Degree of Bachelor of Laws. The year will close in this department on the 25th of May, 1871.

MEDICAL DEPARTMENT.

Graduation from the Collegiate Department of this University, or from some other collegiate institution, is necessary to admission into this department.

A class will be formed on the 15th of September, 1870, for the study of medicine.

A course of lectures will be delivered to the students in this department on the following subjects:

Chemistry, Materia Medica and Pharmacy.

S. B. HOWELL, M. D.

Anatomy, Physiology and Surgery.

J. WILLIS HOUSTON, M. D.

Principles and Practice of Medicine and Toxicology.

D. D. KENNEDY, M. D.

Hygiene, Toxicology and Medical Jurisprudence.

D. W. HUTCHISON, M. D.

Arrangements have been made to secure for the students access to hospitals and clinics in Philadelphia.

All medical students will be registered in the offices of practicing physicians, and on completion of the prescribed course, and satisfactory examination, will receive from the Board of Trustees, the degree of M. D.

The year will close, in this department, on the 25th of May, 1871.

EXPENSES.

THEOLOGICAL DEPARTMENT.

Applicants for admission to the Theological Department will be required to present evidence of membership, in good standing, in some regular Church. They must also possess such qualifications in scholarship as will enable them to profit by the studies of this Department.

COURSE OF INSTRUCTION.

FIRST YEAR.

Exegetical Study of the Greek Testament,
 Hebrew,
 Biblical History.
 Introduction to the Study of the Scriptures,
 Homiletics.

SECOND YEAR.

Exegetical Study of the Greek and Hebrew Scriptures,
 Didactic Theology,
 Pastoral Theology,
 Ecclesiastical History and Church Government,
 Homiletics.

The emancipation of four million of our race from bondage has opened a vast field of labor to the Church. Until recently the freedmen enjoyed the advantage of religious instruction in connection with organized churches in the South; but now, being separated from their former relations, they are suffering the disadvantage of an illiterate ministry, or are wholly without ecclesiastical organization. The requirement of a complete classical training as a prerequisite to authorized ministerial labor will defer for a generation their enlightenment by the truth. Pious colored men, though without any knowledge of the Latin or Greek, or the higher Mathematics, could be most usefully employed in gathering and instructing congregations in all the Southern States. Such auxiliaries to the ministry are greatly needed, and can be multiplied; and under the direction of pastors and ecclesiastical bodies, they may accomplish much good. We are prepared to coöperate with the churches in this matter, and have arranged the fol-

lowing course of studies as adapted to qualify men of piety and good natural abilities for extensive usefulness.

COURSE OF STUDY.

Exercises in reading the Scriptures and Hymns.

Biblical History.

Systematic instruction in the doctrines of the Bible.

Practical Exercises in the preparation and delivery of Sermons.

Familiar instruction on pastoral work and the transaction of Church business.

The course is so arranged that Students may be exercised in the subjects one or two years, as necessity or choice may determine. No charge will be made for tuition to those taking this course. The entire expense for boarding, washing, fuel, &c., will not exceed one hundred dollars a year. We invite the coöperation of Christian people to give success to this effort by their contributions.

EXTRA EXPENSES.

An exact estimate of the necessary expenses of a Student, above what is included in the session bills and estimates, cannot be made. Additional expenses are incurred for light, books and stationery. Every Student is required to provide his proportion of furniture for his room, and sheets, pillow-cases and towels for his own use.

AID TO STUDENTS.

The Trustees desire to supply, in this Institution, the benefits of a thorough education to every worthy applicant. Those who are able to pay their bills have only to comply with the conditions of admission printed above, and on examination by the Faculty, they will be admitted. But no earnest young man of good abilities and good moral character, should be discouraged from seeking the advantages which are here offered. Many Religious Institutions and benevolent individuals are coöperating with the Trustees to provide for those who need aid. All such, who are able to present certificates of worthiness, should apply early for admission, and state in writing what part of the above expenses they can meet, what progress they have made in study, and their purpose in seeking an education.

The attention of all who feel an interest in this object, is directed to the facilities here offered for the acquisition of a thorough Christian education at the least possible expense. Many in our Northern cities, and in the Freedmen's Schools of the South, are eager to devote themselves to the work of teaching, who could be prepared for the duties of that position in a single year. Every one hundred and ten dollars applied to this object would send a workman into the field, whose labors among the freedmen might continue for a generation. Support for two years would secure teachers of more than ordinary accomplishments. A scholarship of five hundred dollars will pay the college charges for some worthy Student as long as the Institution shall continue in successful operation, leaving the expense of board and books to be met by his own exertion. A scholarship of fifteen hundred dollars, properly invested, would bring a collegiate education within reach of any industrious young man; and every four years would send a graduate into the harvest field, or advance him so far towards

usefulness in professional life, or in the gospel ministry. Are there not many who will avail themselves of this means of doing good? Correspondence may be addressed to the President of the University, or to any member of the Faculty.

LIBRARY.

The Library contains about two thousand volumes. Valuable donations have been made during the past year by Revs. Albert Barnes, S. C. Brace, and M. B. Grier, D. D.; by Hon. W. Townsend, a complete set of the Smithsonian publications; by Joseph Henry, L.L.D., Secretary of the Smithsonian Institution, and a complete set of the Journal of the Franklin Institute, with other valuable works imported expressly for the Library of Lincoln University by Dr. Charles C. Cresson of Philadelphia.

There is no provision made for the regular increase of the Library. Donations on subjects of general Literature, Science, Theology, Law, and Medicine, are earnestly solicited from the friends of the University.

MUSEUM AND PHILOSOPHICAL APPARATUS.

The University possesses a valuable Philosophical Apparatus, and a Mineralogical Cabinet selected by Dr. S. B. Howell, Professor of Chemistry. There is at the present time urgent need of two hundred dollars to furnish the new Chemical Room with conveniencies for analysis and general experiments.

RELIGIOUS SERVICES.

Prayers are held in the Chapel every morning and evening.

There is a Church in the University, and public worship is celebrated in the Chapel on the Sabbath, morning and afternoon. All the Students are required to be present at these services.

A daily prayer-meeting is also sustained by the Students.

The new Chapel, in the Hall just completed, has not yet been furnished with seats. Five hundred dollars are needed to prepare it for worship.

GRADUATION.

The Degree of Bachelor of Arts, Bachelor of Laws, and Doctor of Medicine, will be conferred on all students who complete the prescribed course of study in the several departments of the Arts, of Law, and of Medicine, to the satisfaction of the Faculty and the Board of Trustees.

Students not designing to pursue a Classical Course are admitted to the privileges of such classes as they are qualified to join. Those approved by the Faculty for their diligence and success, will receive, on their departure from the Institution, an honorary certificate as a testimonial to their Scholarship in the branches of study which they may have pursued.

YEARLY STATEMENT.

The property of Lincoln University consists of its real estate and its invested funds. The grounds include fifty acres of land, partly wooded, half a mile from Lincoln University Station on the Philadelphia and Baltimore Central Railroad. The University is now directly accessible, by this road, from Philadelphia and Baltimore, and is about equi-distant from the two cities. Students coming from the West by the Pennsylvania Central Railroad may shorten the rout by taking the cars, on the Reading and Wilmington Railroad at Coatesville, to the junction of the Baltimore Central at Chad's Ford. Applications for admission are numerous and urgent.

The advantages of a liberal education are still beyond the reach of those most eager to acquire them, and who from identity of interest and feeling can be most relied on to devote their energies and talents to the great work of enlightening and elevating the freedmen of the South. The friends of humanity, who believe that a liberal and Christian culture is the best means of elevating them to a comprehensive Christian view of their own interests and responsibilities, have now the opportunity of training

the men whose influence, thrown into the scale at the right time, may confirm this important element of our population in their attachment to our Protestant Christianity. The influence which Protestantism shall exert in this vast field will be decided, under God, by the number and devotion of evangelical teachers and ministers who may be qualified and sent forth to teach in the public schools and to preach the Gospel. The trained and cunning emissaries of Romanism, and the bolder advocates of Rationalism, are seeking to gain the freedmen. The attractions of education and promotion which they hold out will draw to their side in this struggle many a strong mind and earnest nature. The freedman must not be left, with his intense thirst for knowledge, to the powerful temptation to accept it in associations which imperil his faith. Let the same attractions draw him to the truth. Those who can bear the expense of their own education will not always be found the most devoted to this work of Christian charity and sacrifice. Will not the Christian Churches of our country supply the means of educating pious young men of color in Christian Institutions, that they may guide this whole population to the knowledge of the truth which elevates and saves?

There are four endowed Professorships belonging to the University, of twenty thousand dollars each: The Mary Warder Diekey endowment of the Presidency; the Avery Professorship of Lincoln University; the J. C. Baldwin Professorship of Theology; and the William E. Dodge Professorship of Sacred Rhetoric.

Dr. S. B. Howell, of Philadelphia, Professor of Natural Science, has lectured during the year to the classes on Chemistry and Natural Philosophy; but the want of endowment has prevented the Institution from reaping the full advantage of his appointment. It is hoped that during the present year this Professorship may be fully endowed. An effort to endow the Chair of the Latin and Greek Languages has met with some encouragement, but only partial success. The Professor elect has entered upon his labors; but owing to the want of a dwelling-house at the University, he has been obliged to live in the borough of Oxford, nearly four miles distant from the University buildings. Five thousand dollars are urgently needed to build a house for his use on the College grounds. Is there not

some friend of the University who will appreciate this necessity and supply the needed funds.

The Rev. William R. Bingham, of Oxford, Pa., has consented, at the request of the Faculty, to continue his Lectures on Pastoral Care.

Dr. J. Willis Houston has continued his Lectures on Anatomy, Physiology, and Botany, without charge.

At the request of the Faculty, the Rev. Albert Barnes has delivered to the Students a Course of Lectures on the Evidences of Christianity. They were received with great appreciation, and have awakened wholesome inquiry, both in the Institution and among the citizens of the vicinity.

The Committee appointed by the Board of Trustees at the last annual meeting, have fully established the Normal, Preparatory, and Business Department in the University, and have secured the valuable services of Mr. W. W. Woodruff as Principal.

A change has been made in the sessions of the University in conformity with the experience of Collegiate Institutions. The students now board in clubs, an arrangement which relieves the Faculty of a great embarrassment, and promotes the enjoyment and contentment of the students. The expenses of each club are divided equally among the members. The economy which they practice goes directly to their own benefit. The exact cost of board per week cannot be anticipated, but the experience of five clubs for more than five months justifies the statements made in the Catalogue.

During the summer vacation of 1869, twenty-eight students were employed for three months in teaching schools in the Southern States. The facts connected with the organization and conduct of these schools are often of the most interesting character. No better evidence can be asked by the friends of this University, of its efficiency for good, than the success of its students in this work, They invariably gain the confidence of the communities where they labor, and evince their competency, devotion, and prudence.

A post office has been opened at Lincoln University, (station,) and correspondents are requested to address the President and resident Professors,

at Lincoln University, Pennsylvania, except that Rev. G. T. Woodhull's address is, for the present, at Oxford, Pennsylvania.

Of the students whose names are found in the Catalogue, thirty-seven are candidates for the ministry in the Presbyterian, Episcopal, Methodist, Baptist, and Congregational Churches.

Five students have united with the College Church during the year.

This University is consecrated to the glory of God and the good of man. It has received the endorsement of all who are acquainted with its work. The friends of universal education are cordially invited to investigate its plans and operations, and to coöperate with its officers in conferring the benefits of a liberal and Christian culture on the colored population of our country.
