GENERAL INFORMATION.

AID AND SELF-SUPPORT.

Lincoln University was founded to bring the benefits of a liberal Christian education within the reach of worthy colored young men.

This end is promoted here by providing convenient buildings for study and residence, where young men who comply with the conditions of admission are welcomed and made comfortable, and by the diligent training of the students in all the parts of such an education.

All the income of the Institution, from endowment and from annual contributions, is used in favor of the students to keep the necessary charges for instruction and for living down to the lowest possible figure. The benefits provided here are within the reach of all who are willing to combine self-support with aid.

The full college bill is only \$121.50.

Every student is under obligations of fairness and honor and honesty, and also of benevolence, to do all he can to support himself, and thus aid others who are equally with himself deserving of encouragement.

PERSONAL EXPENSES.

The actual expenses of a student, above what is included in the session bills, depend on his habits and economy.

He must have text books for each year of the course.

The purchase and repair of clothing is a recurring necessity.

He cannot travel to and from the University without money to pay his fare.

If he becomes sick there may be the expense of medicine and attendance.

The literary societies justly require annual contributions.

These personal expenses are the care of the individual students.

It is not the purpose of the Trustees to relieve the student from the necessity of making provision for his own personal wants.

Herein *especially* they exact co-operation.

Each student must provide beforehand to meet these necessities, or they will distress him.

And besides securing *home assistance*, he should be *industrious* in his vacations to increase his honest *earnings* in every lawful way, and should *honorably* save them for these uses. To spend his earnings in superfluities or in extravagances is to squander them and to barter his education for his enjoyments.

After every effort he will not escape the discipline of want. In enduring this discipline he is practicing a virtue.

A manly struggle will help to subdue pride and cultivate self-reliance and trust in God.

In a student struggling with poverty for an education any luxurious indulgence is a disabling vice. He must conquer it, or it will cripple him in his powers and in his usefulness.

His wise friends may sympathize with him in his trials, but they will not excuse him from the acquisition of self-denial, and *thereby* of self-control.

The common judgment is that HE WHO CANNOT ENDURE THE TRIAL IS NOT WORTH THE HELP.

Cigarette smoking is prohibited.

All smoking in the halls and public rooms is forbidden.

The whole tobacco habit is discouraged.

The use of distilled or fermented liquors is prohibited.

Many benevolent friends of the Negro are co-operating

with the Trustees and Faculty in providing aid for those who will use their education for the good of others. Careful discrimination is exercised in directing this aid to individuals, so as not to weaken the sense of personal responsibility and self-reliance. Those who can pay their own bills have only to comply with the regulations and they will be admitted to the standing in the classes for which their previous training has fitted them; but no earnest young man of good abilities and good moral character should be discouraged from seeking the advantages which are here offered.

ADMISSION.

Applicants should apply for admission to the President, or to the Dean of the Faculty of Arts, or of Theology, and state in their application their purpose in seeking an education, what progress they have made in study, and the degree of their ability to meet the expenses of education.

Every applicant for admission must present evidence of good moral character; and if from any other institution, a certificate of honorable dismissal from the proper authorities.

Candidates for the Freshman Class are examined in the following subjects:—

ENGLISH	Orthography; Grammar and Analysis; Composition.
LATIN	Grammar (Allen and Greenough).
GREEK	Grammar (Goodwin).
MATHEMATICS	Arithmetic, including Fractions, Percentage, Proportion, and Square Root. Elementary Algebra.
BIBLE	Genesis, and the Gospel according to Mark.
HISTORY	United States (Montgomery or Barnes).
GEOGRAPHY	High School Geography.

After passing satisfactory examinations in the studies required for admission to the Freshman or any advanced

class, the candidate for admission shall matriculate, by subscribing to the laws of the University and by the payment of a matriculation fee.

Entrance Examinations are appointed for the 23d of September, 1903.

As an inducement to thorough preparation, and to subsequent diligence in the studies of the course, several prizes are assured to successful competitors under the following conditions:—

1. Competitors for entrance prizes must be present and take the appointed examinations on the day designated for public examinations.

2. A first prize of \$25 will be awarded to the candidates for admission to the Freshman and Sophomore classes whose examinations shall be credited with the highest average grade in all the subjects of examination, provided no grade taken in any subject shall be less than 90 per cent.; and a second prize of \$20 to the candidates whose examinations are credited with the next highest grade, under the same conditions.

ATTENDANCE.

All students in the University are required to attend daily prayers, religious services on the Lord's Day, and all exercises of instruction and recitation assigned to them.

Students regularly advanced with their classes in the courses of study are required to return promptly to the University at the opening of each session.

ADVANCEMENT.

The advancement of a student to the upper classes depends on his success in scholarship, and on his worthiness in character, and on his disposition to use his education for the benefit of all whom he can influence for

good. Neglect of duty, indifference to scholarship, general worthlessness, without any proved particularly gross offense, will be visited with dismissal. The Ten Commandments are laws of the University.

ACCESSIONS TO THE LIBRARY.

During the current year the Library has received gifts of books from the family of the late Rev. Edward Webb, Oxford; Rev. John S. Sands, D. D., J. L. Bailey, and Miss Ames, Philadelphia; Mrs. Mary L. McCauley, Atlantic City; and Profs. Samuel Dickey and George Johnson and Samuel F. Houston, Esq., to all of whom grateful acknowledgment is hereby expressed.

Total additions to the Library during the year, 700 volumes.

READING ROOM.

The Reading Room is supplied with a number of daily and weekly papers and monthly and quarterly reviews.

GYMNASIUM AND BATH ROOMS.

A number of generous friends have united to erect on the grounds of the University a building combining the features of a Gymnasium and a Bath Room. It is the first twentieth century improvement on the University grounds, and in its design and form it is worthy to introduce its successors. The insufficiency of funds prevents the immediate completion of the gymnastic feature of the building. For the same reason the furnishings in both departments will be inadequate.

RELIGIOUS AND LITERARY SOCIETIES.

LITERARY SOCIETIES.

There are two Literary Societies, the "Garnet Literary Association" and the "Philosophian Society." They meet every Friday evening in their respective halls for current business and for literary exercises. These societies secure an admirable training in self-restraint and self-command, in parliamentary procedure, and in aptness of studied and impromptu speech. All the members are required to take part in these exercises. The societies are governed by laws adopted by themselves, and administered by officers chosen from their own members, under the general supervision of the Faculty of Arts. At the close of the session these societies hold their anniversaries, when an annual address is delivered by some distinguished graduate; and a Sophomore oratorical contest takes place, two gold medals being awarded as first and second prizes in each Society.

THEOLOGICAL LYCEUM.

The "Theological Lyceum," of which all theological students are members, meets every Friday evening for exercises connected with evangelistic and theological questions. The room occupied by the Lyceum is supplied with a library of general and special commentaries, and furnished with religious periodicals.

MISSIONARY SOCIETY.

There is a Students' Missionary Society, in whose meetings missionary topics are discussed and a missionary spirit fostered. There is also a Students' Volunteer Band in the University. Missionaries from the field are from time to time invited to address the students.

CHRISTIAN ENDEAVOR SOCIETY.

There is a Young People's Society of Christian Endeavor connected with the Ashmun Church in Lincoln University. The Society meets every Saturday evening. The first Saturday evening of every month is a consecration meeting. Delegates are sent to the State and National conventions. The members unite with other Christian students to welcome the incoming students to the privileges of the University and to throw around them the safeguards of religion.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

A Young Men's Christian Association has been in existence for many years, and is in full and vigorous activity. The local Association is in organic connection with the Pennsylvania State Associations, and in friendly co-operation with the Associations in the Southern States.

CLASSES IN VOCAL CULTURE.

Special provision has been made to give all those who are interested in music the opportunity of a thorough and systematic course in its principles and practice. To realize this purpose an accomplished and experienced teacher of vocal culture, Prof. William B. Godfrey, of Narberth, Pa., has been appointed Musical Director, and all the classes are regularly instructed in choral and solo performances.

LAW LECTURES.

On the initiation of J. M. C. Dickey, Esq., a member of the Board of Trustees, and a son of the honored Founder of the University, a course of lectures on law has been

established. These lectures are addressed to the entire student body.

The lecturers for the current year are:—

JUDGE JOHN B. MCPHERSON, of Philadelphia.

JUDGE JOHN STEWART, of Chambersburg.

EX-JUDGE DIMNER BEEBER, of Philadelphia.

PROFESSOR B. C. STEINER, of Baltimore.

ALEXANDER SIMPSON, JR., ESQ., of Philadelphia.

REGULATIONS.

The course of study in the Collegiate Department occupies four years.

Applicants for the Freshman Class must be at least fifteen years of age.

Candidates for advanced standing will be examined in the studies previously pursued by the class which they propose to enter.

At the end of each session public examinations of all the classes are held. Absence from an examination, except for sufficient reason, sustained by vote of the Faculty, will be regarded as a serious delinquency.

At the close of each year all the classes are examined, either orally or in writing, in the studies of that year.

Students delinquent in attendance, in scholarship, in character, and of bad influence are dropped from the roll.

No student of Lincoln University is allowed to solicit pecuniary aid to meet the expenses of his education. The infractor of this rule will be followed by dismissal. A graduate of the University guilty of a like offense will be dropped from the roll of honor at the end of the catalogue. The name of the student or graduate whose life becomes a dishonor to himself or to his Alma Mater will not be continuously published in that roll of honor.

EXAMINATIONS AND STANDING.

The rank of a student in his class depends on his grade in his recitations and examinations; on his punctuality and constancy in attendance upon all exercises of instruction.

The maximum mark in each study is one hundred; the minimum, or passing mark, is fifty. The rank in each course is determined by the instructor, who divides the class into groups.

The classes are divided into six groups:—

The first group indicates very high standing, and con-

tains not less than one-thirtieth nor more than one-eighth of the entire class.

The second group indicates high standing, and contains not more than one-fifth of the entire class.

The third group indicates high medium standing, and contains not more than two-fifths of the entire class.

The fourth group indicates medium standing, and contains not more than two-fifths of the entire class.

The fifth group indicates low standing, and contains not more than two-fifths of the entire class.

The sixth group contains any members of the class who have not reached the minimum passing mark of fifty, and who are, therefore, conditioned. A student thus conditioned in any subject must remove his condition before the end of the following term.

A student conditioned in three studies, with three different instructors, is assigned to the sixth general group, and is dropped from his class.

In an elective class the above fractional parts are fractional parts of the entire class and not of the number of students taking the elective.

The general rank of a student is determined by combining his group numbers in the several courses in proportion to the allotted schedule time of each. The students whose averages are highest and above an established limit are assigned to the first general group; those next highest, to the second general group; and so on through the several groups.

GENERAL AND SPECIAL HONORS.

The first and second general groups in the Freshman, Sophomore, and Junior Classes constitute the general roll of honor of the class, and are published in the University catalogue, with the names in each group arranged in alphabetical order.

Special honors are awarded at the close of the Sophomore year in the following departments: 1, Classics. 2,

Mathematics and Science. 3, English, History, and English Bible; and at the close of the Junior year in the following departments: 1, Classics. 2, Mathematics and Science. 3, English, Logic, and English Bible. These special honors are awarded to members of the Sophomore and Junior Classes, respectively, whose average rank during the year has not been below the third general group, and who have maintained a first group standing in all the departments in which the special honors are awarded, and who have also satisfactorily completed any special work required by the professors in those departments. The names of those to whom special honors are awarded are published in the University catalogue.

GRADUATION.

Students who complete the whole course of study in the Collegiate Department satisfactorily to the Faculty and Board of Trustees, and who maintain an honorary standing for morality and manliness, receive the degree of Bachelor of Arts, and may, on the payment of its cost, receive a diploma certifying to their graduation.

The final standing of the graduating class is determined by combining the averages for the several years of the course, except that the average of the Freshman year is omitted in those cases in which it would lower the standing of the student.

General honors are awarded to those members of the graduating class whose average standing thus determined is within the first, second, and third general groups. These groups are designated *magna cum laude*, *cum laude*, and *cum honore*, respectively, and are published on the Commencement programme, and in the University catalogue, with the names in each group arranged in alphabetical order.

Special honors are awarded to those members of the graduating class whose average rank for the entire course has not been below the third general group, and who have maintained through the Junior and the Senior year a first

group standing in each subject in the department in which the special honors are awarded, and who have also satisfactorily completed any special work required by the professors in those departments.

These special honors are awarded in the following departments: 1, Classics. 2, Mathematics. 3, English. 4, English Bible. 5, Science. 6, Philosophy. 7, History and Political Science; and are published on the Commencement programme and in the University catalogue.

COMMENCEMENT SPEAKERS.

The valedictorian is chosen from one of the first three general groups of the class.

After the valedictorian has been chosen the Latin salutatory is awarded to the student whose individual rank is highest.

Orations are assigned to other members of the class with special regard to their qualifications as speakers, as well as on the ground of scholarship.

COURSES OF THE CURRICULUM.

ENGLISH LANGUAGE AND LITERATURE.

The student, on entering the Freshman Class, must be well acquainted with the essentials of English Grammar and Analysis.

Bunyan and Milton are taken as representative English authors, and during the Freshman and Sophomore years selections from their works are studied with the care usually bestowed on the Latin and Greek classics. This course is accompanied by instruction, with written exercises, in higher Grammar, Philology, and English Composition.

The Junior year is occupied by a full course in Rhetoric. During the Senior year the history of English and American Literature is studied by text book, along with lectures and direct examination, as far as possible, of standard English authors. The study of Vocal Expression is associated with the Literature Course.

Essays are required in all the classes.

An honor course is offered for 1903-4. The subject of class study will be Tennyson's "In Memoriam." There will also be required individual private study of one standard English author—to be selected with the approval of the instructor.

An original oration is delivered by each member of the Senior and Junior classes before the Faculty and students of the University during the second term of the session.

LOGIC.

Logic is taught in the first and second sessions of the Junior year. Jevon's "Lessons in Logic" is the text

book used. The aim of the course is to cover in outline inductive and deductive logic, and to promote the logical acumen and skill of the students by simple exercises in "common fallacies."

PSYCHOLOGY.

Psychology is taught during the Senior year; two hours per week in the first session and one hour per week in the second session. James' Psychology—Briefer Course, is the text book used. In this department of study the main object is to familiarize the student with the facts of his mental life.

ETHICS.

The course in Ethics aims to cover in outline the principles of theoretical and practical morality. Mackenzie's Manual of Ethics is the text book used.

THE ENGLISH BIBLE.

The Authorized Version of the English Bible is studied by all the classes in both departments of the University. The minion 12mo. reference edition of the American Bible Society is an inexpensive and suitable text book. The student needs also Cruden's Concordance, unabridged; and a reliable Bible Dictionary.

For admission to the Freshman Class applicants are examined in Genesis and the Gospel of Mark.

During the collegiate years the course of study embraces the historical and poetical portions of the Old and New Testaments. Special attention is given to the mutual relations of the several books, and especially their presentations of the different aspects of the one plan of salvation by Jesus Christ. The committing of Scripture to memory is an important part of the course.

An honor course is offered in this department to the first and second groups of the Senior and Junior Classes for a satisfactory investigation and thesis on the proposition: "The inspiration of the Scriptures guarantees sundry fixed chronological data in the history of the human race."

MATHEMATICS.

The required course in Mathematics includes the study of Algebra, Geometry, and Trigonometry.

In Geometry special emphasis is laid upon the demonstration of original theorems and problems.

The essential principles of Trigonometry are carefully studied, together with their application to the measurement of heights and the surveying of land. Instruction is given in the practical use of surveying instruments, including the determination of heights and the measurement of areas.

Additional courses are offered in Analytical Geometry and in Differential and Integral Calculus.

ASTRONOMY.

In the required course in Astronomy, it is the aim of the professor to give the students such a knowledge of Astronomy as every educated man ought to have, and sufficient to form the groundwork for future study. The work in the class room is supplemented by lantern slides, and by the constant use of the telescopes for observation of the heavens.

A course in Practical Astronomy, involving the determination of time and latitude and the use of the equatorials, and also a course in the History of Astronomy, based on Berry's "Short History of Astronomy," is open to students who desire to continue the study further.

The Astronomical Observatory is situated at a convenient point on the college campus. The principal in-

NATURAL SCIENCE ROOMS.

struments are: An equatorial of five and one-quarter inch aperture by John Byrne, with right ascension and declination circles, and driving clock, mounted on a pier of solid masonry; a telescope of four-inch aperture by Secretan, equatorially mounted; a two-inch transit instrument on pier; sextants; and electric clocks, sidereal and solar.

PHYSICAL GEOGRAPHY.

Professor Guyot, of Princeton University, the master in his day of Scientific Geography, elevated this subject from the mere rudiments to a prominent department in science. His text books are recommended for reading, and the various subjects are discussed and unfolded as a separate course throughout the Sophomore year. This branch of study is taught by Prof. J. B. Rendall.

NATURAL SCIENCE.

Science, as studied at present in the University, embraces Physics, Chemistry, Geology, Zoology, and Physiology.

Physics is taught throughout the Sophomore year and during the first term of the Junior year. It is taught by lectures, illustrated during the entire course by numerous experiments. The apparatus possessed by this department is quite valuable, and growing rapidly more so through gifts of money by the friends of the Institution and the annual appropriation set apart by the Board of Trustees.

The floors of all the scientific rooms rise in steps from the lecture table towards the rear, in order that all experiments may be readily seen by the students.

Physiology is taught in the Junior year along with the allied branches of Anatomy and Hygiene. The lectures are illustrated by skeletons, charts, plates, and casts, and

supplemented by lectures with the oxy-hydrogen lantern, in which photograms and microscopic slides are thrown on the screen. It is the aim to make this course of practical use in after life.

Chemistry is also taught in the Junior year, by experiment mainly, the lecture and experiments being supplementary to each other.

Geology is taught in the Senior year by lectures, illustrated by specimens of rocks, minerals, and fossils, also by lantern and microscopic slides.

HISTORY.

In the Sophomore year the History of England is studied. Special attention is given to tracing the great social, political, and religious movements which have affected the English people, and have left a permanent mark upon their life and institutions. The text book used is J. R. Green's "Short History of the English People." While a text book is thus used, much freedom is exercised in the class room in the discussion of important questions which may arise.

In the Senior year special attention is given to the Philosophy of History, and the great events of universal history are reviewed in illustration of its principles.

SOCIOLOGY AND POLITICAL ECONOMY.

Sociology is taught during the Senior year, dividing the time between theoretical study and consideration of the practical social problems of the present day.

The principles of Political Economy are studied during both sessions of the Senior year. Special attention is given to practical features of the subject.

GREEK.

Instruction in this department extends through the whole collegiate course. Special effort is made in the later years of the course to rise above details of construction to the criticism of the thought and style of the authors read, and to secure to the student the advantages of exactness and precision in his own thinking, and of readiness and propriety in expression.

An honor course is offered to those members of the Senior and Junior Classes who have shown marked proficiency in this department. A special library of selected books is provided for the use of such students, to which they have constant access. Some one Greek author is studied throughout the year, and in connection with this study, papers and theses calculated to inspire original investigation are required from the more advanced students. This course is intended to be especially helpful to those who may subsequently become teachers of this or allied branches.

LATIN.

The authors read are Cæsar, Sallust, Virgil, Horace, Cicero, and Tacitus. The course also includes Mythology, Roman History, Arnold's Latin Prose Composition, and selections from various authors and a manual of Latin Literature.

The students in the early part of their course are thoroughly drilled in the analysis of sentences and grammatical structure. After this the questions are largely philological, and derivation receives special attention.

When the poetic authors are reached the students give attention to versification. The rhetorical suggestions of Horace and Cicero are noted.

Thus the various departments of instruction are made to help each other. The latter portions of the course furnish occasion to bring out the style and spirit of the authors.

ELECTIVE HONOR COURSES.

Any professor may offer honor courses in his department, and to these courses any student of the Senior and Junior Classes may be admitted who shall have taken a first, second, or third general group standing for the previous term, and a first or second group standing in the department in which the honor course is taken. Students of the Theological Department, with the consent of the Faculty of Theology, and other students of the Upper College Classes who have taken at least a third group standing, may be admitted to these courses at the discretion of the professor.

COURSES OF THE CURRICULUM.

ENGLISH BIBLE.

The design of the Board of Trustees in establishing this Chair is to secure that no student shall be graduated from the Theological Department of this Institution without acquiring a thorough knowledge of the Bible in the English language.

To this end the Board of Trustees has enjoined it upon the Faculty of Theology to *require* the students under the direction of the incumbent of this Chair to read the whole Bible carefully and studiously, and to commit to memory such passages as may be assigned to them with this design.

Instruction is given on the versions of the sacred Scriptures, especially on the history of the English Version. The fourfold record of the life of Christ, the Epistles of Paul, and the Prophetical Books of the Old and New Testaments are carefully taught. The information is imparted in a practical form, that it may be of service to the young men as teachers, preachers, and pastors. Before entering the Theological course the student is expected to be familiar with the historical and poetical portions of the Scriptures. And while in this department they are enjoined to read the whole Bible with studious and reverent attention.

HEBREW.

Hebrew is taught throughout the three years.

The Junior year is given to acquiring an exact knowledge of the *language*, the blackboard being constantly used in teaching. The grammatical principles and a good working vocabulary are gradually acquired. They

are practically applied from the beginning in converting English into Hebrew, either as impromptu work upon the board in the class room, or as home exercises to be corrected afterwards before the class.

During the latter part of the Junior year Genesis I.-XV., and I. Samuel I.-X., are translated; also other selections at sight.

In the Middle year a careful exegetical study is made of some portion of the Prophetical Books—this year portions of Isaiah. Introductory lectures are delivered upon the Prophetical Books, setting forth the date, authorship, circumstances, and the exact import of each book. Portions of the same are read as sight reading.

In the Senior year some portion of the Poetical Books is studied exegetically—this year The Psalms. Other selections from the Poetical Books are read as sight reading. Introductory lectures are delivered upon the Poetical Books.

Chief emphasis is placed upon Exegesis rather than upon Introduction, not only as a means of discovering the exact meaning of the Old Testament Scriptures, but also for the purpose of furnishing material for homiletic use. Instruction is also given regarding the Hebrew canon, text, manuscripts and the early versions. Special classes are conducted in the Cognate Languages when desirable.

CHURCH HISTORY.

Church History is taught throughout the Middle and Senior years, covering in the two years the History of the Christian Church from Apostolic times to the present.

The aim of the course is not to notice every detail, but to place such emphasis upon important events and transitions as will make each student able to state clearly and exactly the cause and nature of all such events, and to

enable him to take an intelligent survey of the whole field of the Church's existence.

Each student is required to write a carefully-prepared thesis upon some assigned subject within the sphere of the year's work, requiring independent research.

MIDDLE YEAR.—From Apostolic times to the Protestant Reformation.

SENIOR YEAR.—From the beginning of the Protestant Reformation to the present.

The text book is "Fisher's History of the Christian Church."

NEW TESTAMENT LITERATURE.

The manuscripts and canon of the New Testament. Special introduction to the New Testament Books. The Harmony of the Gospels. Greek Grammar of the New Testament and Exegesis.

Special effort is made not only by extended reading to acquire sufficient familiarity with the vocabulary and construction of New Testament Greek to make reading easy, but also by a careful and critical exegesis of selected portions to train the student in a thorough exegetical method, which should be of practical value to him in the ministry.

SYSTEMATIC THEOLOGY.

Systematic Theology is begun in the Junior year and continued through the entire course. "The Outlines of Theology," by Dr. A. A. Hodge, is used as a text book.

The aim of the course is to impart an adequate knowledge of the doctrines of the Church, explaining their consistency, reasonableness, and in grounding them in the Word of God.

The students are diligently instructed in the system of theology embodied in our Westminster Standards. In addition to the usual routine work of the class room, the

students are encouraged to read collaterally, and by the assignment of these to investigate the topics of doctrine for themselves.

PASTORAL THEOLOGY.

The course of study in Pastoral Theology will cover two years of the curriculum, and has been arranged with a view to the practical treatment of every phase of activity and influence which belongs to the Christian pastorate.

The Pastoral Epistles are carefully studied at the outset as the foundation for the whole course of instruction, and special emphasis is laid upon the personal and spiritual elements of ministerial training.

CHRISTIAN EVIDENCES.

The range of studies under this head will include, in general, the grounds of Theistic and Christian belief.

The aim is to present in connected form the evidences—drawn from all sources—of natural and revealed religion.

In connection with the study of Biblical Archæology, one session will be devoted to the evidences of the truth of the sacred Scriptures from the monumental records of the past.

BIBLICAL ARCHÆOLOGY.

A definite and accurate knowledge of the social, religious, and political life of the nations of the East in Bible times will be the object of the study.

Special attention will be given to the rapidly accumulating testimonies of modern discovery and research; and, whenever necessary, the subject matter of the text book will be supplemented by lectures and stereopticon illustrations.

The topography and general features of the lands of the Bible will be carefully studied in the first session of the

Junior year. The Land of Israel, by Dr. Stewart, is used as a text book.

Analysis of the subjects treated, outline maps, and essays on special themes will be required during the course.

CHURCH GOVERNMENT AND THE SACRAMENTS.

One hour a week throughout the Senior year is given to the study of Church Government and The Sacraments.

This includes:—

1. A course of instruction on the distinctive forms of church government and the details of Presbyterian polity, modes of discipline, and rules of order.

2. Instruction in the institution, design, efficacy, and administration of the sacraments. The questions in the shorter catechism furnish the ground work for the practical phases of this study, and the answers to these questions are memorized, as well as carefully studied.

A Church Session and Presbytery are constituted, under the direction of the professor, for the transaction of routine business, with a view to the acquisition of practical knowledge concerning rules of order and methods of conducting the deliberations of our church courts.

Dr. J. Aspinwall Hodge's Manual of Presbyterian Law will be used as far as practicable as text and reference book in connection with this course of studies.

ECCLESIASTICAL LATIN.

One hour a week in Ecclesiastical Latin is assigned to the Junior Class. The day has not yet come when Protestant Christians can afford to lay aside the knowledge of the tongue in which the Latin Church publishes its dogmas and decrees to the world for obedience. Our own Church still exacts a Latin thesis from her candidates for the ministry. As a part of this course such a thesis is required of each member of the Senior Class.

SACRED RHETORIC.

Broadus' "Preparation and Delivery of Sermons" is used as a text book. In the Middle and Senior years instruction is also given by lectures, by the analysis of texts and the making of plans, and by criticism of the sermons delivered by the students. Extempore, as well as written, sermons are required from the students of the Middle and Senior classes, who are also taught and trained in elocutionary expression.

During the Middle and Senior years students are required to preach without manuscript.

Each Senior student preaches at a public service in the Chapel, and is afterwards criticised in private by the Seminary professors.

GENERAL STATEMENT.

Lincoln University is in Chester County, Pennsylvania, half a mile from Lincoln University Station, on the Philadelphia and Baltimore Central Railroad. That part of Chester County in which the University is situated is notably free from malarial and pulmonary diseases. The Institution is well removed from associations which divert the mind from literary pursuits and substitute culture for character. The post office, where the Resident Professors should be addressed, is

CHARTER OF LINCOLN UNIVERSITY.

The corporate title of this Institution is "*Lincoln University.*" Bequests intended to promote the work of this University will be legally valid under that title. To the title add the county and State to prevent confusion with other institutions having the same prefix.

The first charter of this Institution was granted by the State of Pennsylvania, under the title of "Ashmun Institute," in 1854. In 1866 the title was changed by amendment of the charter to "*Lincoln University.*" In 1897 the control of the THEOLOGICAL DEPARTMENT was given to the Presbyterian Church of the United States of America both in respect to instruction and property.

The Mary Dod Brown Memorial Chapel, the gift of the late Mrs. Susan D. Brown, of Princeton, N. J. The chapel contains an audience room for Sabbath services capable of seating four hundred persons, and a Prayer Hall for daily use communicating with the chapel by sliding frames.

UNIVERSITY HALL is designed exclusively for recitation purposes. It is heated by steam throughout. Its ventilation has been carefully regarded. The Chemical and Physical rooms are in the basement. They are furnished with water pipes and chimney ventilation. Provision has been made in them for the preservation of the valuable apparatus of the University, and for experimental instruction in these departments of Natural Science. This hall was built with undesignated funds of the University.

THE VAIL MEMORIAL LIBRARY.

This beautiful structure, precious as a memorial, and doubly precious as a testimonial of the goodwill of living friends, comprises a stack room, with a capacity of thirty thousand volumes; a consulting room, with encyclopædias and other books of reference; and a reading room, with daily papers and current periodicals. The number of volumes now in the Library is eighteen thousand. The Library is the gift of William H. Vail, of Newark, N. J.

During the current year we have received an addition of seven hundred volumes; but for the regular increase of the Library the University has no special fund. Until such a fund is established we must depend, for the increase and improvement of the Library on the thoughtful liberality of our friends. All books on all subjects have a worth in a library greater than their market value. Contributions of books will be thankfully received.

LAVATORY AND GYMNASIUM.

Through the liberality of several friends of Lincoln University a Lavatory, with Gymnasium features, has been erected. Apparatus for the Gymnasium is an immediate and urgent necessity.

AIMS, RESULTS, AND WANTS.

Lincoln University especially deserves the confidence of the Christian public as an agency through which the friends of the Negro may convey to him the blessings of a Christian education, and of a moralizing Gospel ministry.

ORGANIZED IN 1854.

Eight years before President Lincoln issued his proclamation of freedom, Lincoln University was chartered, under the title of "Ashmun Institute," to give a liberal scientific, classical, and theological education to colored youth of the male sex. A liberal Christian education was the forethought adopted by the founders of Lincoln University for the elevation of our colored population before their civil emancipation.

THE HIGHER CHRISTIAN EDUCATION OF THE NEGRO A NECESSITY.

This higher Christian education of the Negro is his highest necessity. He must have the higher education because he is a *man* bearing the image of God. His higher wants and their supply cannot be deferred to other needs without peril to his spiritual nature. Manual industry is *not* in itself a *prelude* to religion. Skilled workmen are not always Christians. Industry is God's law. It must be sanctified to be a blessing. We are reconciled to work because it is God's ordinance, and He makes it a blessing.

A youth growing up to manhood must be able to earn his bread. But it is more important that he should be *disposed* to earn it. While he is acquiring his trade he needs a *Christian* home. The whole family needs a religion which will save the soul from sin and death. This is the *primary* want of the Negro, as well as of the Anglo-Saxon. And God who holds him to his responsibility has defined our duty.

AIM OF THE FOUNDERS OF LINCOLN UNIVERSITY.

The founders of Lincoln University have from the beginning directed their efforts to provide *intelligent, pious Christian* helpers for our Negro population in these higher wants of every one of them, whether he is a skilled workman, or an unskilled laborer. Every thousand mechanics and farmers need a pious, well-educated, competent minister. And every intelligent, benevolent Christian man knows that the highest skill in trades and other manual industries will not qualify any one to be a preacher to a congregation of sinners or the pastor of a flock of believers.

Christian benevolence will never stop at the limit of manual industry, because it seeks the salvation of the Negro. And Lincoln University is pledged by its charter and by the trusts which it has accepted to apply all its resources hitherto received to promote this higher education of the man in the mechanic, of the family in the community, and of the immortal in his present life.

It is the purpose of the Trustees and Faculty of Lincoln University to communicate, without stint and without delay, all the advantages of a liberal scientific, classical, and Christian education, according to our means and ability, to worthy young men who may become the wise leaders of the colored people, in the conviction that this is fair to them; that *their* needs are the same as *ours*; and that as *God*

has given them the ability to acquire all the parts of such education, making no difference between them and us in natural endowments, so *He will give them grace* to use the power which accompanies education for the enlightenment and moral elevation of their own people and for the highest good of our whole people.

The education imparted at Lincoln University is both liberal and technical. The aim is to cultivate and develop the *whole* man, to *incline* and *qualify* him for the practical duties of life, and to be a helper to his fellowmen. The necessity of a *high degree* of skill in all manual industries has been too long overlooked by the friends of the Negro. Employment and fair wages are the prize of the *skilled* workman. The present movement to promote industrial education is both wisely philanthropic and benevolently Christian. And because trade unions, and organized industries, especially in the Northern States, generally exclude the Negro from work requiring skill and yielding good wages, special provision is wisely made for his industrial education in all the mechanical trades.

But the Christian Church cannot end its work for the Negro by favoring merely his industrial prosperity. The Negro laborer is in a family which needs to be made a Christian home. If his home is Christian it will be a blessing in the community where he lives.

THE PURPOSE OF GOD TOWARD THE NEGRO.

God's purpose toward the Negro is to make him a partaker of all the blessings of grace. He has indicated this purpose by conferred endowments and capacities of which men cannot deprive him, and by imposed duties and responsibilities from which other men cannot relieve him. Even the Canaanites, if now living, would be the heirs of grace and debtors to the Gospel.

Christ's blessing *supersedes* the quondam curse which

once fell upon a segment of the human race; for he has sent the message of it to "every creature," making no present-day exception.

But the *Negro* was *never* involved in *any* curse. It is a palpable misinterpretation of the Scriptures to connect *the Negro with the curse* which fell upon Canaan alone, of all the sons of Ham. That curse was executed upon his descendants in the land of Canaan. Let not man extend the curse to those whom God hath not cursed. Some of the sons of Ham have led the world in honors and in power. The Ethiopians have received special tokens of God's favor. Their generations are not extinct. They are one-eighth of the population of the globe. And God has shown in gospel times what he would have done to Ethiopians. When one of them came from his benighted home to Jerusalem to worship and was returning thither unenlightened in saving knowledge, the Spirit of God called an occupied and successful evangelist to leave the spiritual harvest field of Samaria and overtake the fast-receding traveler, and preach unto him Jesus. In him Ethiopia was not allowed to stretch out her hands to God in vain. What he did to the treasurer of Candace, let us do to our contemporaneous Ethiopians. Our ears should not be shut against the cry of those upon whom God looks with favor. If He is their maker, He has given them the high honor of His likeness, and the power of their numbers. If He has admitted them to the brotherhood of faith, let us welcome them to its earthly advantages. If God has called any of them to preach the Gospel to their perishing fellow-men, then we are working in the line of His purpose when we are organizing the agencies which promote their knowledge of saving truth and their fitness to proclaim it. God will be glorified in the Ethiopians. In laboring for their salvation, Lincoln University is a co-worker with God in His gracious purpose.

VIEWS AND TESTIMONY OF SOME OF THE ACTIVE FRIENDS
OF THE NEGRO IN THE CENTURY JUST CLOSED.

TO MANY OF THEM HIS RELIGIOUS WANTS WERE JUST AS
VISIBLE AND AS PRESSING AS HIS INDUSTRIAL WANTS.

The late Hon. William E. Dodge, who was a Trustee of Lincoln University for twenty-one years, and who in his lifetime endowed the Chair of Sacred Rhetoric, and procured the endowment of the Latin Chair, and moved in the General Assembly, at Saratoga, the establishment of the Chair of Hebrew by the Presbyterian Church, said:—

“It has been my privilege to be connected with the Lincoln University, as one of its Trustees, for a great many years, and I have watched its progress with a great deal of satisfaction. It was founded for the liberal education of Freedmen. I believe that a great portion of the North, that took such a deep interest in the welfare of the poor Negro when he was a slave, felt as though, when they knocked off his shackles, and elevated him to the position of a freedman, they had nothing left to do but to thank God for this wonderful deliverance. If we leave them in their ignorance, and abandon them to the culture of those who desire to make of them the followers of a party, so that they may keep them entirely under their control, I am not sure that we have done anything for their welfare.

“* * * Unless they are educated they will be a terrible power against our Republican and Christian institutions.

“I have had a great deal to do with the South. I have watched the drifts of events since the war with intense interest. What is wanted there *now* is that in every large city, in every county, there should be just such men pre-

cisely as the selected graduates of Lincoln University. You ought to place intelligent men like them in every centre of influence, and these are the men we want educated at Lincoln. We have other institutions that do not go as far as Lincoln. But they have not the power to exert such an influence as the graduates of Lincoln, some of whom have spent seven years in that institution.

"Now, what wants to be done is to arouse an interest throughout this country to multiply such instrumentalities. There is money enough. Institutions are getting it all over the country. There have been very large gifts to our classical institutions, and it would be well if our men of wealth, who are giving to our colleges, could realize the fact that there is a PRINCETON FOR COLORED MEN IN LINCOLN UNIVERSITY. I believe the Negro is capable of as high classical development as any other race in the world. Lincoln University has demonstrated that already.

"We ought to send out from this institution, of such men as we have already sent, not less than *fifty*, and after a little a class of *one hundred*, every year. There is no reason why we should not have a thousand students there. I believe that gentlemen who are giving to institutions of learning, when they come to die, will look back with feelings of satisfaction that they have left a scholarship, or the endowment of a professorship, for the education of colored men, who will exert such influences upon the masses—the seven millions—of the Freedmen."

President James McCosh, College of New Jersey, said:—

"The college for colored youths at Lincoln University, Chester County, Pennsylvania, has many and powerful claims on the Christian public. I have visited it on two different occasions, and I am able to bear testimony of the high character of its professors (most of them gradu-

ates from Princeton), and the effective teaching which the students receive. I found the answering of the pupils quite up to the average in our colleges, and giving clear evidence of the capacity of the African race to receive and be benefited by instruction in the higher branches. I am convinced that the race is to be elevated by giving *a high education to the better minds among them*, that they may, as ministers of the Gospel, and in the various professions, call forth the energies of their people."

Ten influential ministers of Columbus, Ga., in 1880, said:—

"We are prepared to say that Lincoln University, which has trained and sent forth such men (and so long as it shall do so), deserves the hearty and liberal support of the Christian people of Philadelphia and of the country who desire to aid in the real elevation and the more thorough evangelization of the colored race."

WANTS OF LINCOLN UNIVERSITY.

Endowment.

In accordance with the plan of the General Assembly of the Presbyterian Church for the government of theological seminaries, the Board of Trustees has put the Theological Department of the University under the control of the Presbyterian Church of the United States of America.

This change of our charter requiring the funds of the University held for theological education to be under the control of the General Assembly, and to be exclusively used for theological purposes, necessitates the full and separate endowment of the Theological Department.

To carry this plan of the Assembly into practical effect

in Lincoln University, the General Assembly which met in Winona, Ind., in 1897, took the following action:—

“*Resolved*, That the General Assembly hereby expresses its deep interest in Lincoln University, and especially in its Theological Department, and COMMENDS THIS SCHOOL OF LEARNING FOR YOUNG COLORED MEN TO THE CHURCHES FOR THE LIBERAL SUPPORT OF ITS WHOLE WORK AND FOR THE SEPARATE ENDOWMENT OF ITS THEOLOGICAL DEPARTMENT.”

The separate and adequate endowment and equipment of the Theological Department would require about \$250,000. A beginning could be made with any contribution to the Professorship Fund, the Scholarship Fund, or the Building Fund.

Special Wants of the Theological Department :—

A dormitory for the students, estimated minimum cost	\$25,000
A Recitation Hall, estimated minimum cost	25,000
Separate endowment of the Chair of Ecclesiastical History	25,000
Endowment of the Chair of Christian Ethics	25,000
The more adequate endowment of the existing chairs, each	10,000
Forty-five Scholarships, each, minimum amount	2,500
A boarding house for two hundred students	5,000

Special Wants in the Collegiate Department :—

MINIMUM ESTIMATES.

Endowment of the Chair of Rhetoric and English Literature	\$25,000
A chair of Physics and Chemistry	25,000
A chair of History, Sociology, and Political Economy	25,000
The erection of a Laboratory and Hall of Science	35,000
The more adequate endowment of existing chairs, each	10,000
A boarding house for two hundred students	5,000
Eighty additional Scholarships, each	2,500
One hundred Tuition Scholarships, each	500
The endowment of one hundred free rooms, each	100

General Wants of the University :—

A Christian Association Hall	\$15,000
A system of safe and economical lighting and heating	7,000
A laundry	3,000
An adequate water supply	2,000
An endowment for the enlargement and care of the Library	10,000
Apparatus for the Department of Science	2,000
Material for the improvement of the roadway	1,000

The whole work of Lincoln University needs immediate enlargement. A comparatively small addition to her funds would greatly increase her power for usefulness. Lincoln University is a living, growing Institution. It is a mistake to think that because her resources are increasing her needs are becoming less. Our needs are as the needs of the people for whom we are working. The need of Christian teachers and ministers is only just beginning to be felt, and is by no means overtaken. It is the estimate of conservative Southern educators that not more than one in five of the colored ministers is fitted by education and character to occupy the pulpits in which they are appointed to preach the Gospel. One of our aims is to supply this need of the people. Their friends can do them good by increasing our efficiency. *Our* needs are measured by *their* needs. A college that has no wants has no sphere of duty. Lincoln University would be recreant to her duty and opportunity if she did not enlarge her plans in behalf of a cause so needy and so hopeful.

The University is consecrated to the glory of God and the good of man. It has received the indorsement of all who are acquainted with its work. The friends of the education of "colored youth" are cordially invited to investigate its plans and operations, and co-operate with its officers in conferring the benefits of a liberal and Christian culture on those who prize and so much need this blessing.
